# FY15-FY16 EXECUTIVE SUMMARY 

## Property Tax Abatement Agreements and <br> Chapter 380 Agreements

## Property Tax Abatement Agreements OVERVIEW AND HISTORY

Information presented provides information on the abatement program since its inception in FY1991, and provides projections through FY2028. This time period was established to show the tax abatement program from its inception all the way through the projected end of the abatements currently in place.

## GENERAL INFORMATION

- Chapter 312 of the Property Tax Code
- Exempts all or a portion of the increase in value of real or personal property from taxation
- Cannot exceed 10 years
- Requires adoption of guidelines by the entity every other year
- Reinvestment zone must be adopted for each abated property
- Abatement only allowed once per reinvestment zone
- Public hearings required for each abated property
- Intended for property owners, not necessarily tenants
- If abatement applied within TIRZ, it would require the approval of all participating taxing entities

## ANNUAL ABATEMENT CERTIFICATION PROCESS

- Abatement agreement contracts are certified annually - a coordinated effort by Treasury division and Economic Development office staff members, company representatives, and the Tarrant Appraisal District (TAD)
- Company certification provides estimated taxable value, job, wage information, and project completion status
- Company must also make annual application with TAD by April 30 of each year the abatement is in its active period
- Agreement compliance is determined by comparing certification data and certified values with the contract, and an abatement percentage is assigned accordingly and reported to TAD
- TAD determines eligible value by subtracting Freeport exemption and ineligible value from total value
- Final abated value is determined by deducting the base year value from the eligible property value, and applying the abatement percentage provided by the City to that figure.
- To determine the total abated levy, multiply the Abated Value by the current tax rate, and divide by $\$ 100$
- TAD reports all abatement activity to the State Comptroller's Office on behalf of themselves and the City of Arlington
- Tax bills sent to company represent a levy based on the already-reduced value

An example of the calculation is as follows:

| Total M arket Value： |  | $\$$ | $1,500,000$ |
| ---: | :--- | :--- | :--- | ---: |
| Ineligible Value： | - |  | 300,000 |
| Eligible Value： | $=$ |  | $1,200,000$ |
| Base Year Value： | - |  | 800,000 |
| Amount Eligible for Abatement Exemption： | $=$ |  | 400,000 |
| Abatement Factor（provided by City）： | $x$ |  | $40 \%$ |
| Abated Value： | $=$ | $\$$ | 160,000 |
| Tax Rate： | $x$ |  | 0.648000 |
| Per \＄100： | $\div$ |  | 100 |
| Abated Tax Levy： | $=$ | $\$$ | $1,036.80$ |

## HISTO RY OF ABATEMENTS

In the early years between 1990 （FY91）and 1992 （FY93），the only active abatement was for General Motors．Beginning in 1993 （FY94），National Semiconductor was added．The program began to grow continually，and a decade later the number of abatements was twelve，and had nearly doubled that by 2002，reaching a height in the number of actively abated companies．Those abatements ended，and by the tax year 2015 （FY16），the number of actively abated companies was down to eight．However，there are many Chapter 380 agreements in place where an incentive was approved but a tax abatement agreement was not appropriate for the situation．

## ABATED VALUE BY COMPANY

There has been a total of about $\$ 6.110$ billion in abated value from FY1991 through FY2016, and an anticipated $\$ 4.335$ billion in abated value from FY2017 through FY2029. A total of 36 companies have had abatement agreements, with 34 companies who either have or will experience a portion of the taxable value being abated. Some of these companies have had multiple abatements over the years, sometimes representing different phases of their project, or significant expansions of the business.

| Company | Abated Years | Actual Abated Value To-Date (FY91-FY16) | Projected Value Abatement (FY17-FY28) | TOTAL <br> Projected Abated Value |

## ABATED VALUE BY YEAR

This chart shows the amount of abated value over a 39 -year period. In FY02 the abated value dollar amount was $\$ 550,026,308$ and was comprised of 17 companies, compared to the lower total abated value in FY03 of $\$ 502,139,915$ comprised of 21 companies. In FY16, the eight companies abated equated to $\$ 362,509,416$ in abated taxable value. This is value that is removed from the tax roll prior to the tax bill being created. The chart below shows the projected abated value beginning in FY17.

## ABATED LEVY BY YEAR

This chart shows the amount of abated tax levy over the 39 -year period since the inception of the tax abatement program. Abated levy reached its height in FY02 when the tax roll was reduced by $\$ 3,487,167$ for abatement agreements for 17 companies. In FY16 abated levy was $\$ 2,349,061$ split among eight companies.

## FY16 ABATEMENT PERFORMANCE

In FY16, the City of Arlington had eight active Tax Abatement Agreements, with one of those in the last year of the abatement agreement (MCR Oil Tools / Levon Leasing), and one ending next year (Progressive / Heroux Devtek)

There are five more approved by Council and scheduled to become active: Arlington Commons Lands, Columbia Medical Center of Arlington, General Motors (2015 Expansion), Spartan Printing / J\&J Group, and Texas Rehab Hospital.

The following table shows the basic information for each agreement that was active during FY16, and the far-right column shows the percentage of abatement allowed and reported to TAD:

## NOTES:

[^0]After the percentages are provided to TAD, the following table (below) is calculated by TAD and returned to the City of Arlington. It shows the total values abated in the Abated Value column, and the percentage of total value abated. The total abated value for the Tax Year 2015 (FY16) was $\$ 362,509,416$, or $51.08 \%$ of the total taxable value of all the companies and all types of property combined of $\$ 709,698,808$. The abated value represents $0.40 \%$ of the City of Arlington's $\$ 8.969$ billion in commercial taxable value for the 2015 (FY16) tax year. Progressive and MCR Oil Tools had no abated levy, as they chose not to make application with TAD by the statutory deadline of April 30, despite having certified with City of Arlington.

[^1]Abated Value of $\$ 362,509,416$ equates to $\$ 2,349,061$ in abated property tax revenue, which is $0.24 \%$ of the adopted ad valorem tax revenue portion of the City's general fund budget, and $50 \%$ of the total calculated levy for the same seven companies. Actual levy received from these companies was $\$ 1,787,593$. See table on previous page.

Appraised value growth over the base year value for each of the companies varied, however most showed considerable growth when comparing the combined total value of real estate and personal property.

Appraised Value Growth over Base Year Value

* May not always equate to Base Year Value as defined in agreement; this is designed to show overall growth from when the agreement began compared to current year values.

In addition to capturing information on the appraised value of properties, the annual certification process attempts to capture the most recent number of jobs and the average annual salary of each of the companies with active abatement agreements. These tables compare the number of jobs and the average salary for a fulltime employee reported by each company per year the abatement agreement was active.

NOTES: These numbers are captured at the end of the calendar year prior to the year of certification. For example, if the certification was for the year 2015, the jobs reported were the number of jobs in place as of December 31, 2014, as required by the abatement agreements. In spaces where there is " $n / a$ " this means the abatement agreement was not yet in place for the year represented in the table. If there is a zero or a " - ", it means the abatement agreement was not certified, or no jobs were reported during that particular year.

In the case of Pioneer 360 Business Center, the agreement was being amended during 2011 in order to provide for a later threshold date for the project to achieve the job status. Year one of the abatement was forfeited in return for this amendment, so while the abatement was active during 2011, there was no certification from the company.

# Chapter 380 Agreements OVERVIEW AND HISTORY 

Information presented provides information on the Chapter 380 Agreement program with actual expenditures from FY2007 through FY2015, and provides projections through FY2025.

## GENERAL INFORMATION

- Chapter 380 of the Local Government Code
- Must serve the purpose of promoting local economic development by stimulating business and commercial activity within the taxing jurisdiction
- Agreement between taxpayer and taxing entity to offer a variety of fee-based or tax-based incentives, grants (which may or may not be repaid), or rebates
- Allows for flexibility in packaging an economic development incentive deal to assist with closing a developer's financing gap
- Appropriate for deals with a tenant (rather than property owner); where an abatement is not possible; where a variety of financing mechanisms is warranted in order to make a deal work; or within a TIRZ
- No public hearing required
- Each is structured differently, so each is calculated differently
- Some coordination with TAD, but these are not reported to TAD or State
- If based on sales tax or property tax generation, taxes are paid by company, then rebated (in most cases) either quarterly or annually
- Certified quarterly or annually depending on structure of agreement

## ANNUAL CERTIFICATION PROCESS

- Chapter 380 agreement contracts are certified annually if they are based on property tax values, and either monthly or quarterly if they are based on sales tax values
- Coordinated effort by Treasury division and Economic Development office staff members, company representatives, and sometimes TAD (if needed for assistance with the breakdown of personal property values)
- Company certification provides estimated taxable value, job, wage information, and project completion status
- Agreement compliance is determined by comparing certification data and certified values with the contract, and rebate amount is determined accordingly
- Company must have paid the prior year's property tax bill if rebate is based on property tax
- Rebates are typically made in June
- Not all Chapter 380 agreements receive rebates or grants; some are internal transfers of dollars from one fund to another

This table presents a summary of all Chapter 380 Agreements and their funding sources.

|  | Name | Location | Estimated <br> Total Maximum Value* |  | Improvement Summary | FUNDING SOURCE |  |  |  |  |  |  |  |

## FY15-FY16 Chapter 380 Agreement Recent Activity

- AE Petsche - FY16 is the last year for the eligibility of A. E. Petsche to take fee waivers under this ag reement
- Bowling Congress - FY15 rebate was forfeited, but appears to meet the thresholds to receive the rebate for FY16; this will include both the Real Estate and HOT rebates
- Cambridge Health Property / Heathcare RET - this agreement was terminated recently due to not meeting the improved value criteria
- Decorator's Warehouse - this agreement is anticipated to reach the full refund of the grant (from sales tax revenues) by about FY17
- Demilec - this agreement is not likely to meet the thresholds for improvement in either property tax or sales tax under current conditions
- Arlington Commons Lands - the developer broke ground on the construction portion of this project recently; the $\$ 400 \mathrm{k}$ drainage funds are still outstanding and scheduled to be expended in FY16
- Exter / Arlington Commerce Center - this agreement was assigned in FY16 to Big Box Properties LLC
- Kroger - this agreement was approved and will be using impact fees toward the cost of road improvements
- Parks at Arlington - the remaining years of this agreement are now being paid from the Innovative Venture Capital Fund from FY16 through FY18, when the agreement will end
- Plains Capital - the criteia to build on the lots specified in the agreement did not transpire, and the agreement was terminated and the funds recaptured
- Rico's Products Company - this agreement is a tax abatement, however due to an administrative error at TAD, the first year (FY16) of the abatement had to be converted to a Chapter 380 so that a payment in an amount equivalent to the abatement could be rebated
- Williams Sonoma - this company began receiving grant dollars for hiring Arlington residents
- Texas Clinic - this agreement was terminated recently due to no longer meeting the criteria for the number of jobs
- Vought / Triumph Aero - this agreement began recently in a cash payment for relocation/expansion
- Straumann - this agreement is scheduled to begin in FY17
- L-3 - this agreement was amended recently so that additional infrastructure investment could be reimbursed to the developer; additionally, the first reimbursement for property and jobs will be reimbursed in FY16
- D. R. Horton - this agreement will be paid over a 3-year period beginning FY16 when permits are pulled
- Texas LIVE! - this agreement will be paid upon the issuance of permits, which is anticipated in FY16

[^0]:    * Where Base Year Value is zero, the base year value is zero dollars.
    $\diamond$ Rico's Products agreement was amended in 2016 to convert the first year to a Chapter 380 agreement when it was discovered that the agreement was not added to TAD's records and the company was not abated.
    ${ }^{* *}$ Columbia Medical Center of Arlington agreement also has a hiring grant component, where cash is paid for the hiring of Arlington residents.

[^1]:    * Rico's Products Company Inc's abatement agreement was converted to a Chapter 380 rebate for the first year only, due to an administrative error at TAD. Totals shown do not reflect the rebate.
