Purpose. Open Actions Tracker

1. Is used by the EOC Director to assign and track tasks/actions that do not rise to the level of being an Incident Objective.
2. Is duplicated and provided to Command and General Staff members, giving them the open tasks/actions needing to be completed and a means to track the open tasks/actions they have been assigned.

Note: This form may also be used by Command and General Staff for tracking tasks/actions within a Section/Staff element.

Preparation. The Planning Support Section Chief (PSSC) is responsible for maintaining the Open Actions Tracker and typically utilizes the Documentation Unit Leader (DOCL) to assist in this forms development and updating. The PSSC should ensure all Command and General Staff are prepared to discuss their assigned tasks/actions during the Command and General Staff and Planning Meetings.

Distribution. When completed, the form is duplicated and copies are distributed to the EOC Director and Command and General Staff. It is also posted on a status board located at the EOC. All completed original forms MUST be given to the Documentation Unit.

<u>Item #</u>	<u>Item Title</u>	<u>Instructions</u>
1.	Incident Name	Enter the name assigned to the incident.
2.	No.	Enter number of task in sequential order (1, 2, 3, ...).
3.	Item	Enter short descriptive of the task/action to be completed. Tasks/Actions are important to be completed but are not an Incident Objective which are documented on the ISM 202 form.
4.	Assigned To	Enter the responsible person/section.
5.	Time/Date	Enter time and date.
6.	Start Date	Enter the date the task/action was initially assigned under "Start Date."
7.	Information/ Notes	Enter Point of Contact (POC), status of item, and notes. For example: "Awaiting LE Gear," "Update needed," "Awaiting Feedback." When the item is completed, the word "completed" is entered and if working in MS Excel, the task is cut and pasted into the worksheet labeled "COMPLETED."
8.	Target Date	Enter deadline task/action should be completed. In the Excel Worksheet, there is a hidden formula that shows green, yellow and red blocks. When the target date is one day away, the block turns yellow. When it is overdue it turns red. When the block is yellow, it serves as a reminder to the POC and others that the target date is nearing and the POC needs to complete the task or the target date needs to be updated.
9.	Actual Date	Enter actual date task/action completed.

NOTE: In order to ensure the red and yellow reminders work for new tasks, the user simply copies a task line, inserts it into the worksheet and overtypes the new task information.
