

BICYCLE AND PEDESTRIAN ADVISORY COMMITTEE

North Central Texas Council of Governments Virtual Teams Meeting May 18, 2022 2 - 4:00 pm

2:00 – 2:05 (5 min)	Welcome – Introductions Discussion of the February 16, 2022, BPAC meeting summary, as necessary.	Robert Caskey, Chair, City of Frisco
2:05 – 2:15 (10 min)	2. Improving Bicycling and Walking at University of Texas at Dallas	Gary Cocke & lan Seamans, University of Texas at Dallas
2:15 – 3:00 (45 min)	 3. Local Community Updates a. Julia Burgen Park Trail Connection – Mitali Mandlekar, City of Arlington b. Richardson Active Transportation Plan – Daniel Herrig, City of Richardson c. North Texas Local APBP Chapter – Daniel Herrig, City of Richardson and Brendan Yarborough, Kimley-Horn d. Dallas Bicycle Facility Implementation Update – Jessica Scott, City of Dallas e. Federal Update: Complete Streets Resources, Active Transportation Funding Toolkit, & Upcoming Funding Opportunities – f. Millie Hayes, FHWA g. Upcoming Events – Chad Marbut, BPAC Vice-Chair 	Various BPAC Members and Guests
3:00 – 3:10 (10 min)	4. Fort Worth High-Injury Network	Namoo Han, City of Fort Worth
3:10 – 3:55 (45 min)	5. NCTCOG Updates a. Active Transportation Plan Inventory (ATPI) – Julie Anderson b. TxDOT Roadway Manual – Julie Anderson c. Annual GDB Edits – Cauner McDonald d. Demand Zones for Walking and Bicycling – Cauner McDonald e. State BPAC Update – Kevin Kokes f. 2022 Transportation Alternatives Set-Aside Call for Projects – Daniel Snyder	Various NCTCOG Staff
3:55 – 4:00 (5 min)	Other Business/Open Discussion This item provides an opportunity to bring items of interest before the Committee or propose future agenda items.	Robert Caskey, Chair, City of Frisco

Next BPAC Meeting

The **next** meeting of the Bicycle and Pedestrian Advisory Committee is scheduled for **August 17**, **2022**, from 2:00-4:00pm. The meeting is anticipated to be in person at NCTCOG in the Transportation Council Room.

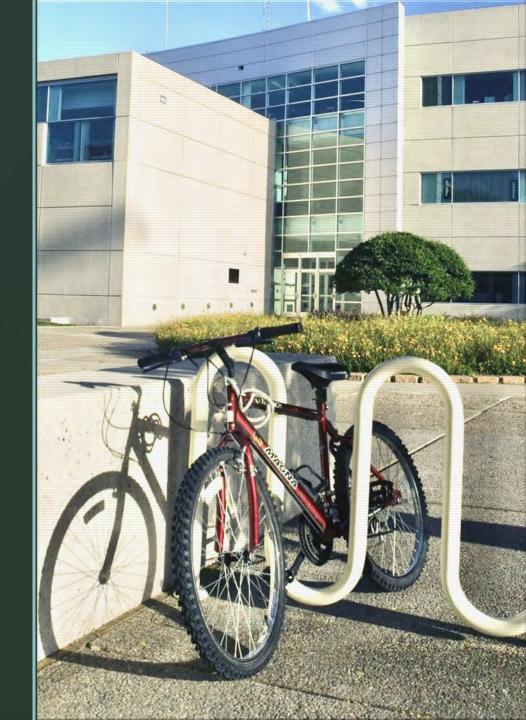

Bicycle Friendly University at UTD

Overview of BFU

- Part of the Bicycle Friendly America program by League of American Bicyclists
- 5 E's. Equity, Engineering, Education, Encouragement, Evaluation
- Reporting every 4 years
- Stakeholder involvement is fundamental.

The Value of Bicycle Friendly Programs

- Creates a roadmap and sets standards
- Inspires goals and spurs action
- Encourages collaboration and community involvement
- Makes progress visible and rewarded

BFU at UTD

- BFU Advisory Committee and outreach to stakeholders
- Collaborates with municipalities, transit agencies, and other university entities
- Encourages and educates
- Center for data collection and evaluation
- Motivates and leads new programs and policies

Collaborating with Local Government

- Participation in the creation of Richardson's Active Transportation Plan
 - Student outreach
 - Organization priorities
 - Hyper-local knowledge
 - Bringing together routes and end-of-trip facilities

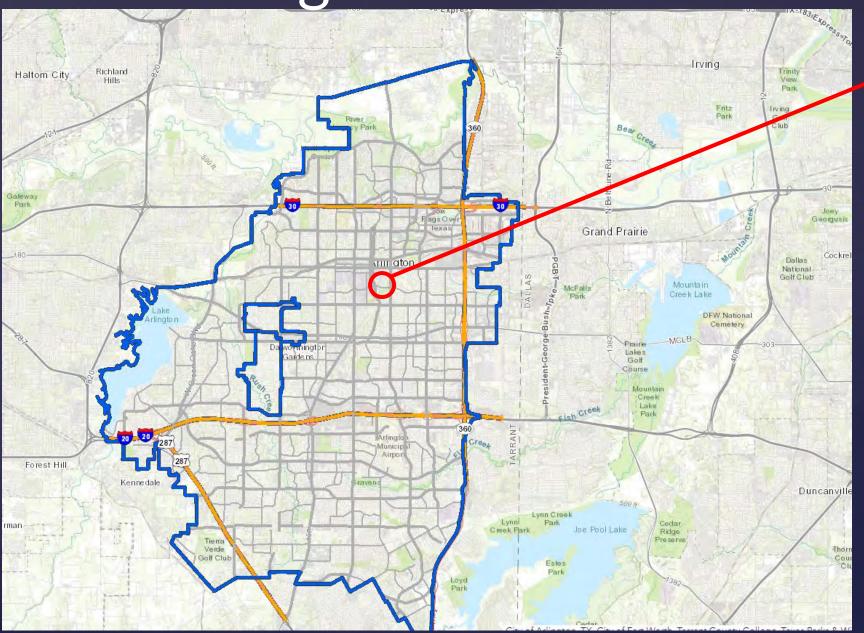

Julia Burgen Park Trail Connection Update

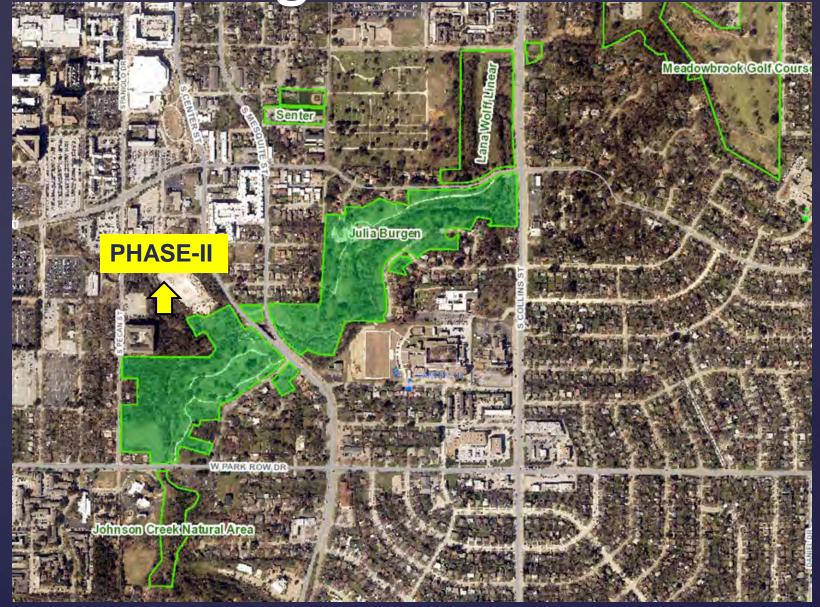

Regional Location

Julia Burgen Park

Julia Burgen Park Location

Phase-I Development Master Plan

Phase-I Development Photos

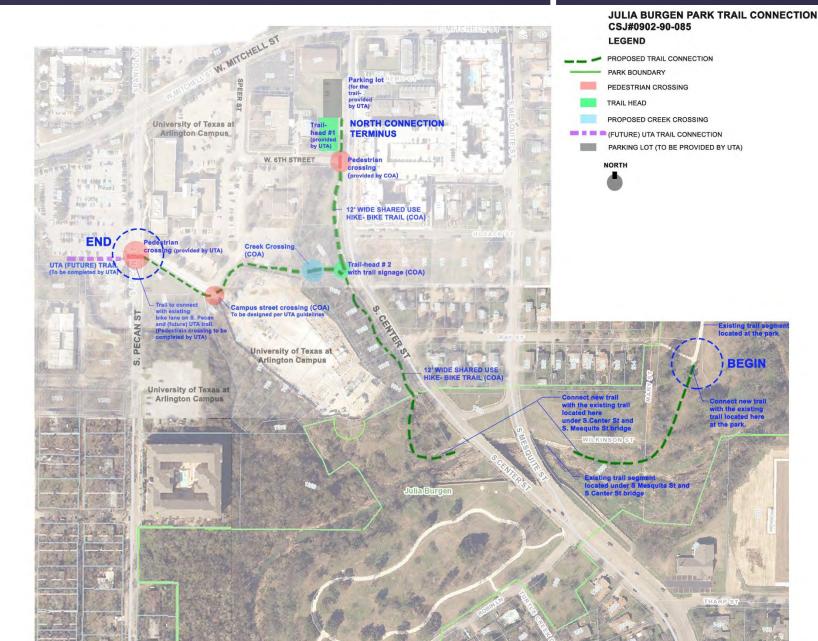

Phase-II Development

Phase-II Development Schedule

- Engineering & Design- 90%
- Environmental Clearance- Complete- April 2022
- Utilities Clearance- August 2022
- ROW Clearance September 2022
- Anticipated Project Letting- December 2022
- Project Construction- Spring 2023- Spring 2024
- Project Completion- Spring 2024

Project Challenges

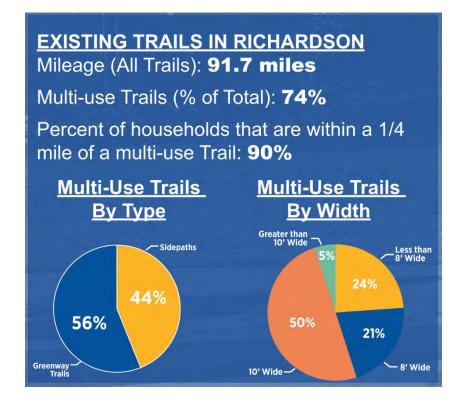

- Easement Acquisition Efforts are underway with University of Texas at Arlington (UTA) since October 2021
- City has made progress but awaiting final easement execution

BACKGROUND

Richardson infrastructure is "good," but many facilities contain stressful conditions prohibiting all ages and abilities from use

EXISTING SIDEWALKS IN RICHARDSON

Total Sidewalk Mileage: 702.9 miles

Roadways with sidewalks: 96%

Percent of households that are within a 1/4

mile of a sidewalk: 94%

EXISTING BIKEWAYS IN RICHARDSON

Total Bikeway Mileage: 67.5 miles

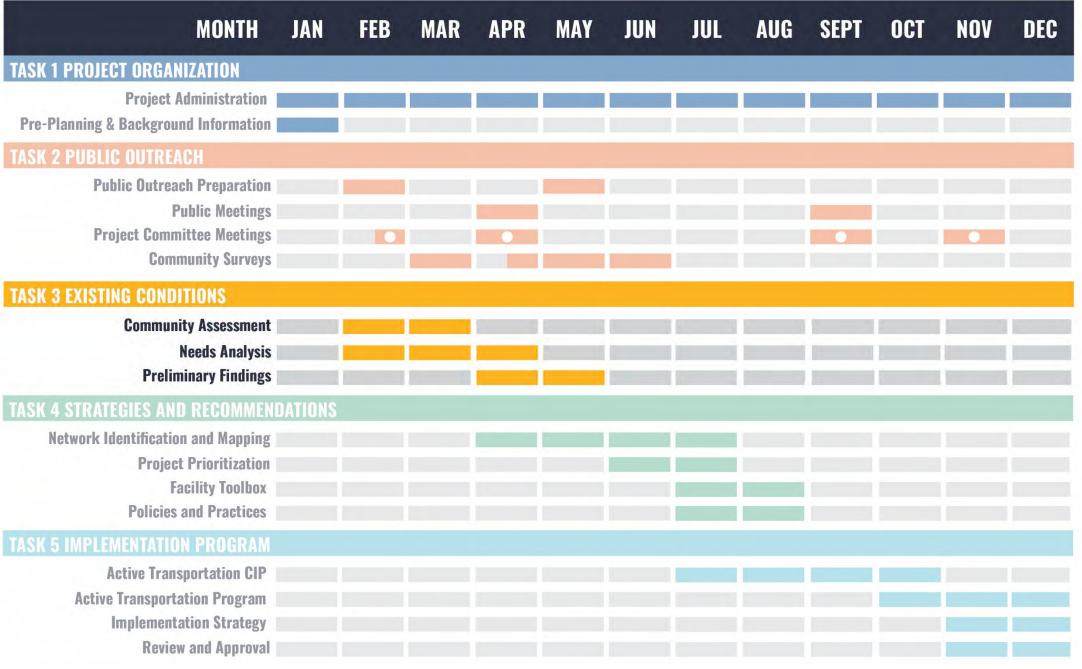

- Bicycle Lanes: **22.9 (37%)**

- Shared Lane Markings: 11.6 (18%)

Roadways with Bikeways: 16%

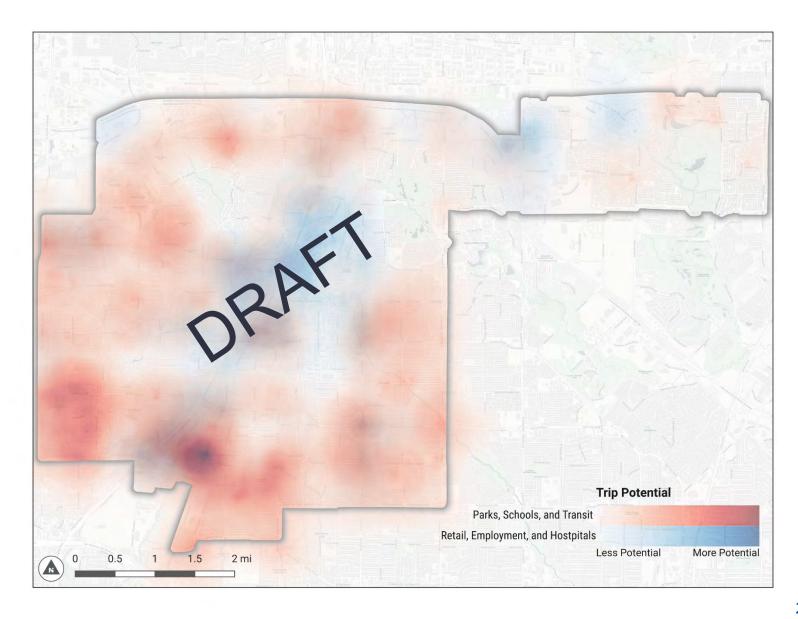

Percent of households that are within a 1/4 mile of a bikeway: **76%**

Association of Pedestrian & Bicycle Professionals (APBP)
DFW Chapter

NCTCOG BPAC Meeting May 18, 2022

Association of Pedestrian & Bicycle Professionals

APBP is a community of practitioners working to create more walkable, bikeable places. We foster peer knowledge sharing, advance technical expertise, and support the professional development of our members who work in government, consulting firms, and in non-profit organizations in the fields of transportation planning and engineering, urban design and planning, public health and active living.

Reasons to be an APBP Member

- Network of 1000+ passionate active transportation practitioners
 - APBP Community Forum to post questions and have discussions
- Access to trends, news, and best practices
- Guidance and support from APBP policy statements on relevant topics
- A collective voice on governmental issues that affect walking and biking
- Opportunities for professional development that share projects,
 working examples, and lessons learned

APBP Membership Dues

- Professional \$120/year (government, consulting, academic)
- Advocate \$88/year (advocacy organization staff/volunteer)
- Young Professional \$50/year (<3 years in practice)
- Student \$30/year
- Retired \$30/year
- Group Memberships 5+ people from same organization save 20%

Purpose of Local Chapter

- Help active transportation professionals succeed in North Texas
- Grow active transportation knowledge and expertise
- Strengthen and grow the profession locally
- Promote interdisciplinary conversation and collaboration
- Provide networking and mentorship opportunities
- Outreach and education

Local Chapter Workplan Ideas

- Networking/Social
 - Happy hours, active transportation trivia
 - Bike rides
- Education and Professional Development
 - APBP Webinars
 - Educational tours (walk/bike)
 - Speaker series, partner with other organizations
- Communication
 - APBP Community Forum platform for dialogue

Partner with Other Organizations

Texas District of the Institute of Transportation Engineers

To shape, promote, and advocate a creative, sustainable future for the Dallas region

Interested in an APBP Local Chapter?

Interest survey link (4 questions):

https://forms.office.com/g/rrgP64wfxn

Complete the interest survey!

Following the survey, an interest meeting will be planned (happy hour or Teams meeting)

City of Dallas Bicycle Network: Recently Completed Projects

Jessica Scott, AICP, LCI

Bicycle & Micromobility Manager

City of Dallas - Department of Transportation

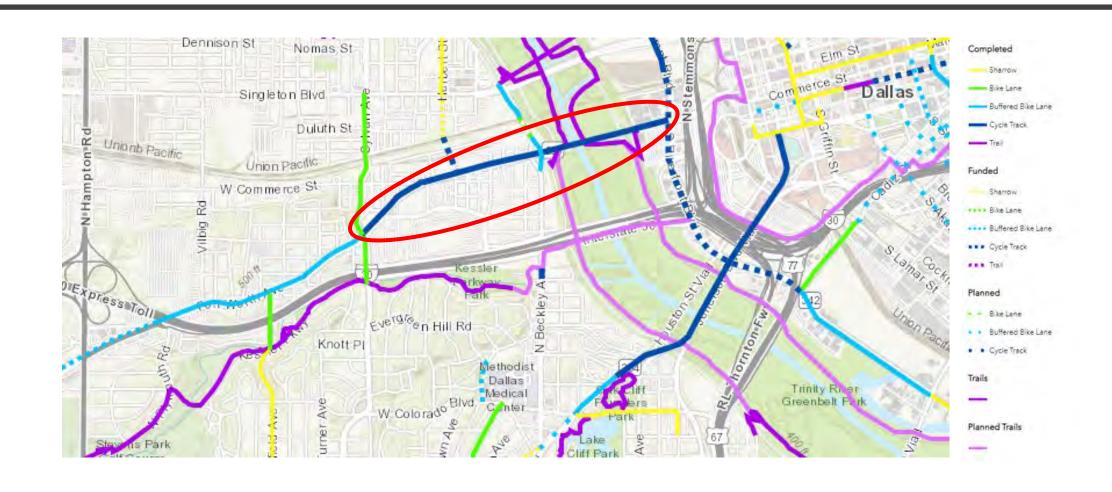

NCTCOG Bicycle & Pedestrian Advisory Committee - 5.18.2022

Purpose & Projects

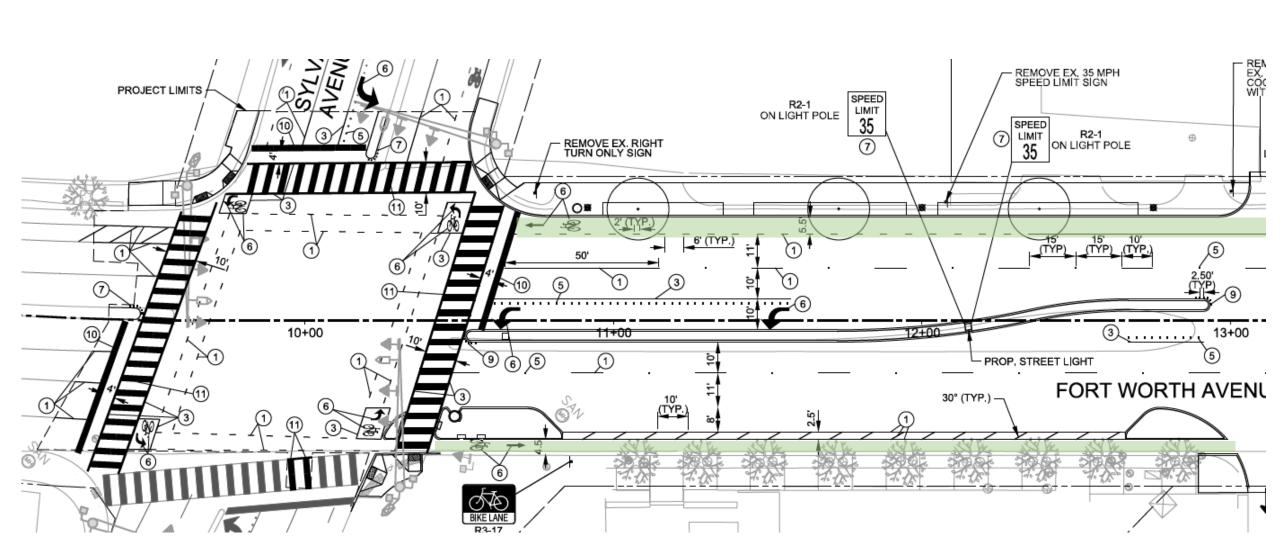

This presentation will highlight and discuss recently completed projects in Dallas through various funding sources to highlight their strengths and challenges along the way.

- 1. Fort Worth Avenue and W. Commerce Street parking protected and separated bike lanes
- 2. Abrams Road concrete and separated bike lanes

Fort Worth Avenue & W. Commerce Street

Fort Worth Avenue & W. Commerce Street

Ft. Worth Ave

Rain gardens and vegetated areas included throughout project.

Maintenance agreements are needed!

Ft. Worth Ave

Ft. Worth Ave

A pinch point along the corridor – planned to be addressed with future redevelopment to relocate median and widen travel lanes and buffer space.

W. Commerce Street

W. Commerce Street

Bike boxes have been added at Commerce Street and Beckley Avenue to help facilitate left turns of cyclists through the intersection.

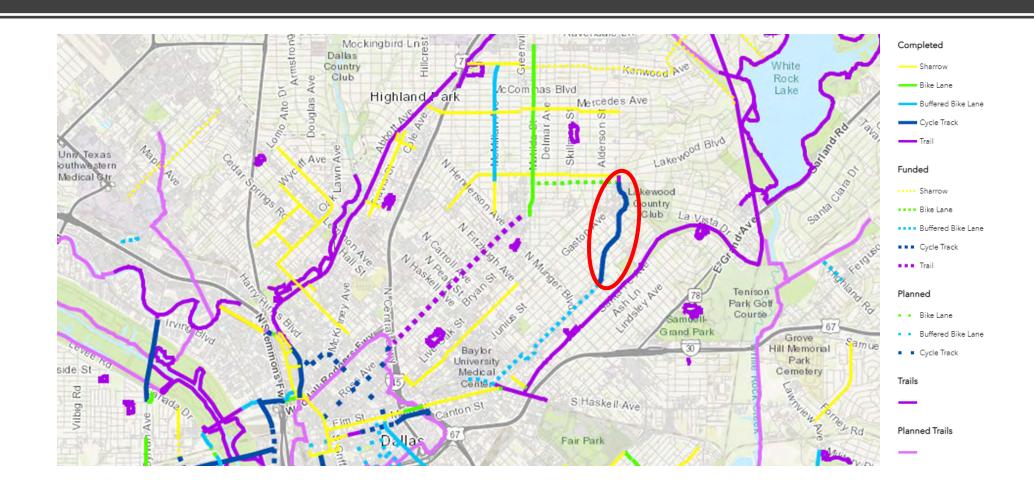

W. Commerce Street

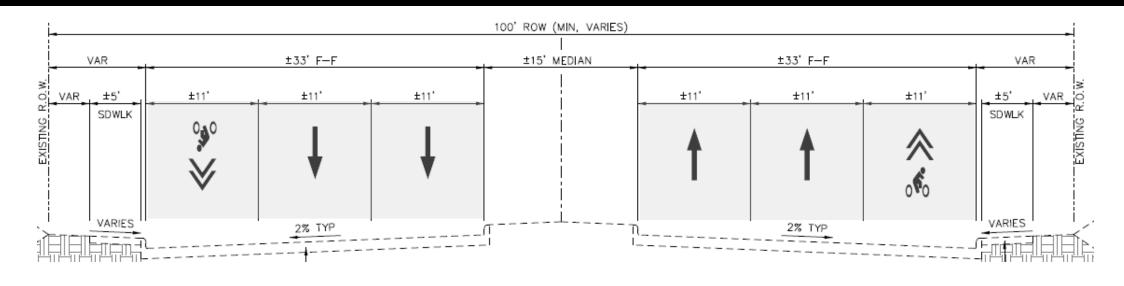

Maintenance of flex post separators has been a challenge.

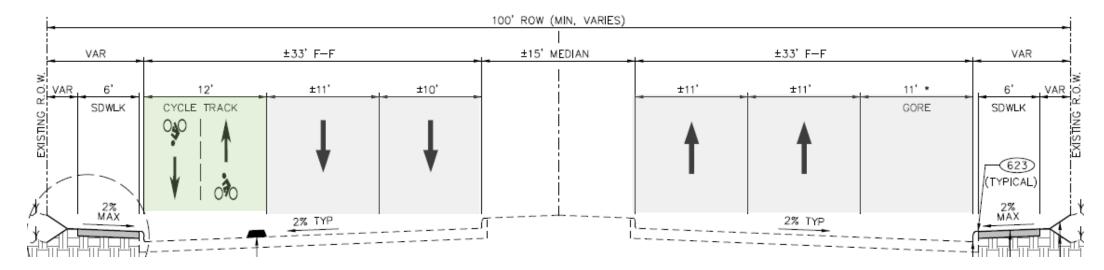

Seen in the picture are 3 generations of maintenance.

A future study is needed to determine if concrete separators are possible on this bridge.

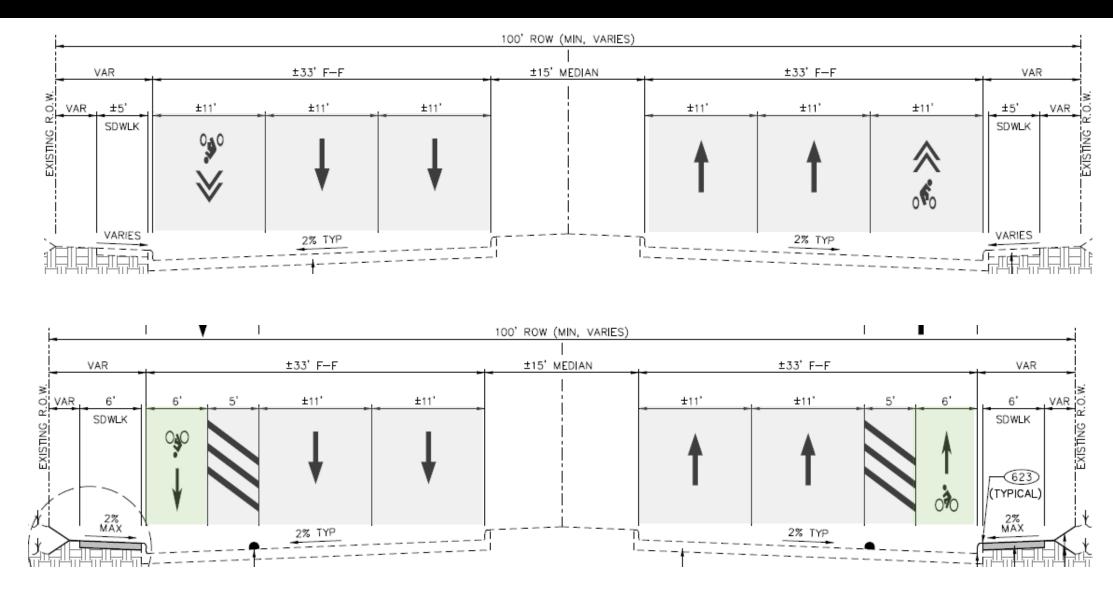

Abrams Road – Northern End of Project Limit

Abrams Road – Southern End of Project Limit

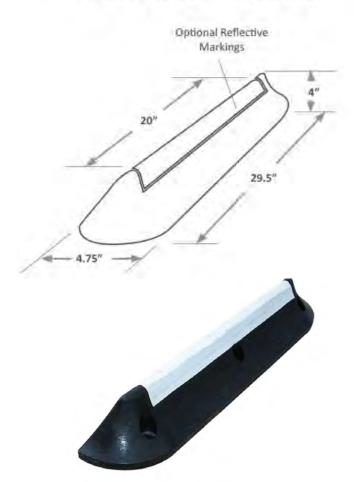

Yellow center-line flex posts have been added to the center line to deter motorists from entering the cycle facility.

White edge-line flex posts have been added to the concrete curb to increase visibility.

Traffic Logix
Cycle Lane Dimensions

Bus stops are shared with the bike lane along the corridor. This design was changed midconstruction.

NCTCOG BPAC Amelia (Millie) Hayes

May 18, 2022

- Learn more about **effective strategies** for expanding bicycle and pedestrian infrastructure.
- Use the highlighted success stories as a conversationstarter for planning active transportation projects
- **Build support** for active transportation projects

Pedestrian and Bicycle Funding Opportunities U.S. Department of Transportation Transit, Highway, and Safety Funds Updated January 21, 2021

This table indicates potential eligibility for pedestrian and bicycle projects under U.S. Department of Transportation surface transportation funding programs. Additional restrictions may apply. See notes and basic program requirements below, and see program guidance for detailed requirements. Project sponsors should fully integrate nonmotorized accommodation into surface transportation projects. Section 1404 of the Fixing America's Surface Transportation (FAST) Act modified 23 U.S.C. 109 to require federally-funded projects on the National Highway System to consider access for other modes of transportation, and provides greater design flexibility to do so.

Key: 5 = Funds may be used for this activity (restrictions may apply).	.5 = Elig	ible, but	not con	npeti	tive u	nless part	of a las	ger pro	ject. \$*	= See p	rogra	m-spec	ific note	s for restri	ctions.

Safe Streets and Roads for All Grants

Key program that supports the National Roadway Safety Strategy

Gorodenkoff - stock.adobe.com

Funding supports local initiatives to prevent death and serious injury on roads and streets, commonly referred to as "Vision Zero" or "Toward Zero Deaths" Initiatives.

SS4A Eligibility

Eligible Recipients

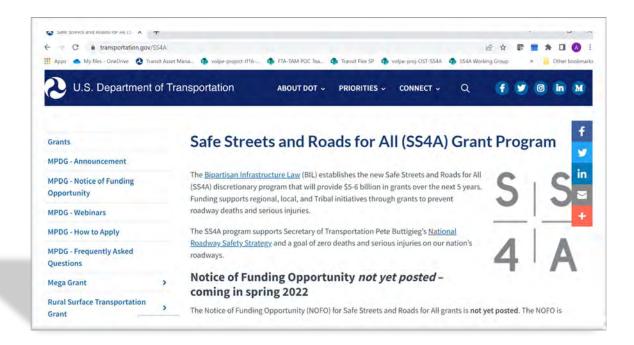

- Metropolitan planning organization (MPOs)
- Political subdivision of a State
- Federally recognized Tribal government
- Multijurisdictional groups comprised of the entities above

Eligible Activities

- Develop a Comprehensive Safety Action Plan
- Conduct planning, design, and development activities
- Carry out projects and strategies identified in an Action Plan

For More information & Questions...

- Notice of Funding Opportunity (NOFO) released on May 16, 2022, for Round One of funding (available on SS4A website and Grants.gov www.grants.gov/)
- SS4A website (NOFO, materials and resources, webinar recordings, FAQs)
 www.transportation.gov/SS4A
- SS4A email address <u>SS4A@DOT.GOV</u> (monitored daily and will respond to specific questions)

The Safe Streets and Roads for All (SS4A) Program will convene a series of **stakeholder webinars** to help potential applicants learn about the program and what they need to know to prepare an application.

- Monday, June 13: How to Apply for the Safe Streets and Roads for All (SS4A)
 Opportunity
- Wednesday, June 15: How to Apply for the Safe Streets and Roads for All (SS4A) Opportunity: Focus on Action Plan Grants
- Thursday, June 23: How to Apply for the Safe Streets and Roads for All (SS4A) Opportunity: Focus on Implementation Grants

www.transportation.gov/grants/SS4A/webinars

UPCOMING EVENTS AND TRAINING

Bicycle and Pedestrian Advisory Committee
May 18, 2022

Chad Marbut, BPAC Vice-Chair

National Planning Conference Online 2022

May 18-20, 2022

The in-person and online conferences will each have unique content and sessions.

Bike-to-Work Day May 20, 2022

City of Lewisville Bike Month Celebrations

The Green Team & Office of Sustainability present:

Celebrate National Bike Month in May

Bike Maintenance Workshop

12:00 pm Learn the basics of bike maintenance. Join us outside the Library's east entrance at the Bike Fixit station. Bring your bike (optional).

Bike Safety Workshop & Old Town Ride

Learn bike safety tips from a League of American Bicyclists certified instructor and join us for an employee group ride in Old Town (3.2 mi.). Learn how to load your bike onto a DCTA train.

Bike to Work Day

Ride your bike to work on National Bike to Work Day!

8:30 am

Bike with the Mayor*

Employee Group Ride

Please join Mayor TJ Gilmore and other local elected officials from Corinth and Denton on a group ride on the DCTA Rail Trail. Starting location is at the DCTA Highland Village/Lewisville Lake station.

Join us for an employee group ride in central Lewisville (6.2 mi.). The ride will 12:00 pm start and end at Thrive and include transitions from paved trails to streets.

*Bike with the Mayor event is open to the public. All other events are for City of Lewisville employees.

5/20

Bike to Work Day

Ride your bike to work on National Bike to Work Day!

5/21

8:30 am

Bike with the Mayor*

Please join Mayor TJ Gilmore and other local elected officials from Corinth and Denton on a group ride on the DCTA Rail Trail. Starting location is at the DCTA Highland Village/Lewisville Lake station.

5/27

Employee Group Ride

Join us for an employee group ride in central Lewisville (6.2 mi.). The ride will start and end at Thrive and include transitions from paved trails to streets.

12:00 pm

*Bike with the Mayor event is open to the public. All other events are for City of Lewisville employees.

Association of Pedestrian & Bicycle Professionals Twin Cities, MN August 22-24

Over 30 panels, workshops, poster displays, keynote speakers and plenary sessions, and mobile tours you won't want to miss!

Registration is now open at

www.apbp.org/2022-conference-register

Master Plans Underway or Anticipated in 2022

- Flower Mound Parks and Trails
 Master Plan (expected June 2022)
- City of Ennis Parks Master Plan (expected June 2022)
- McKinney Trails Master Plan (expected July 2022)

Recently Completed

- Carrollton Trails Master Plan (April 2022 Adoption)
- Denton Mobility Plan (March 2022 Adoption)

- Highland Village Trails Master Plan (expected fall 2022)
- Cedar Hill Trails Master Plan (expected fall 2022)
- Richardson Active Transportation Plan (expected fall 2022)
- City of Dallas Bikeways Master Plan (expected late 2022)
- City of Irving's Bike Plan (expected spring 2023)

Other Events or Training?

For any suggestions/topics for future training opportunities that NCTCOG can help coordinate or promote, please contact:

Daniel Snyder dsnyder@nctcog.org

Vision Zero - High Injury Network

Namoo Han, P.E.

Traffic Engineering, Neighborhood Safety

Transportation and Public Works Department

May 18, 2022

Agenda

- Background
- High Injury Network (HIN) Development
- Top 10 Pedestrian, and Bicyclist HIN Locations
- HIN Roadway Safety Assessments
- 2022 Bond Safety/Mobility Category

Background - What is Vision Zero?

A strategy to eliminate all traffic fatalities and serious injuries through design, education, and policies and regulations which prioritize safe, multi- modal streets

Basic principles of Vision Zero policies:

- There is <u>no</u> acceptable level of fatality or injury on our streets.
- Traffic deaths and injuries are <u>not accidents</u>; <u>they are preventable collisions</u>.
- The public should expect safe behavior on City streets.

In November 2019, Fort Worth City Council adopted Resolution #5149-11-2019, supporting the Vision Zero goal by supporting the development of a Vision Zero-based strategy and related performance measures to achieve the goal.

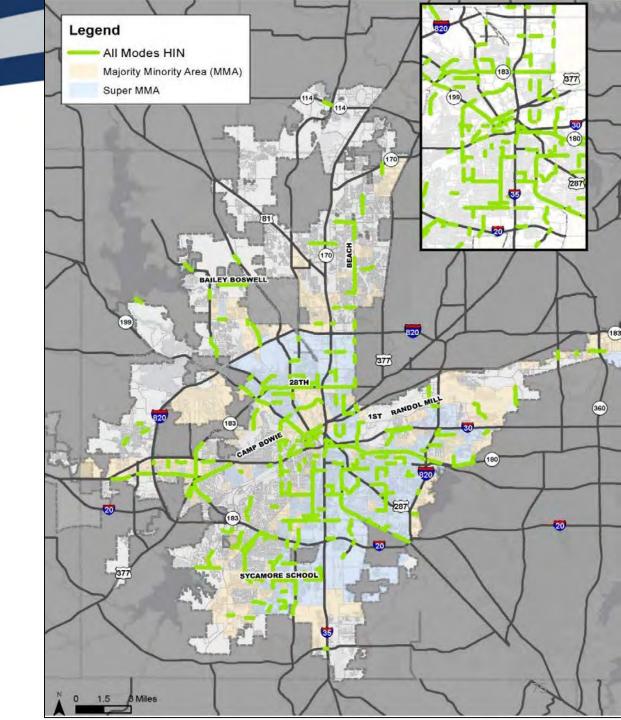

High Injury Network Development

- The High Injury Network is a map that identifies where the highest concentrations
 of fatal and serious injury crashes occur on the roadway network.
- Collision data for five years (2015-2019) was collected and geospatially mapped to represent the distribution of collisions throughout the citywide transportation network.
- 88,480 vehicle, pedestrian, and bicycle collisions occurred in Fort Worth from 2015 to 2019.
- The HIN represents where 50% (44,240) of all vehicle, pedestrian, and bicycle collisions occurred on the City's roadway network from 2015 to 2019.
- Fatal and severe injury crashes were used to rank/prioritize HIN locations for future study and countermeasure implementation.

All Modes: Vision Zero HIN

- From 2015 to 2019, 25% (772) of the City's traffic fatalities and serious injuries (3,126) occurred on only 3.2% of the City's roadway network.
- 79% of HIN roadways fall within or are adjacent to Super Majority Minority Areas (SMMAs)
 - 75% minority population
- SMMAs account for 95.6% of all HIN fatalities.
- 100% of pedestrian (47) and bicycle (2)
 HIN fatalities occurred within a Super
 MMA.

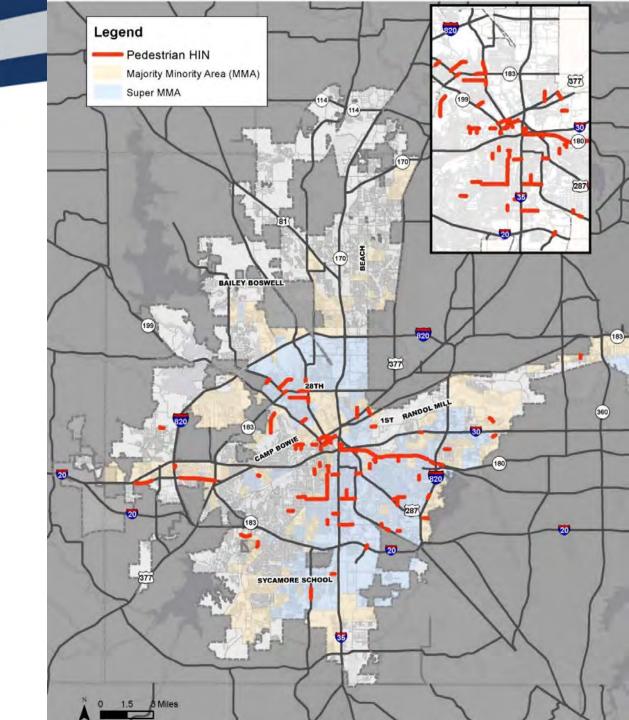

Pedestrian HIN

All Pedestrian
Fatalities & Severe Injuries by Year

Year	Pedestrian Fatalities	Pedestrian Serious Injuries	Total

HIN Roadway Safety Assessment Locations

Mode	Roadway
Pedestrian	Camp Bowie West Boulevard (from Renzel Boulevard to Boston Avenue)
Pedestrian	Isbell Road (from White Settlement Road to Ohio Garden Road)
Pedestrian	Long Avenue (form Azle Avenue to Angle Avenue)
Pedestrian	Eastland Street (from Miller Avenue to Edgewood Terrace)
Pedestrian	Belknap St (from Henderson St to N Houston St)
Bicycle	Allen Avenue (from Hemphill Street to Main Street)

HIN Roadway Safety Assessments (RSA)

- A roadway safety assessment is a field based evaluation of a roadway.
- It is used to identify roadway features that may pose a safety issue and countermeasures to mitigate those concerns.
- In 2021, RSAs were performed for eight Top 10 Vision Zero HIN locations with a consultant
- An additional RSA was performed with FHWA and NCTCOG through their Regional Pedestrian Safety Action Plan
- Assessments will be used to scope Proposed 2022 Bond projects.

Safety/Mobility Vision Zero Bond Category

- The High-Injury Network and Roadway Safety Assessments were used to justify a new category in the proposed 2022 Bond Program.
- Approximately \$5M will be dedicated for safety improvements at HIN locations.
- The category may include components from various categories, such as a project that includes sidewalks, crosswalk and ADA modifications, access management, new streetlights, traffic signal modifications, pavement markings, signs and minor geometric improvements, etc.

- Namoo Han, P.E.
- Traffic Engineering
- namoo.han@fortworthtexas.gov

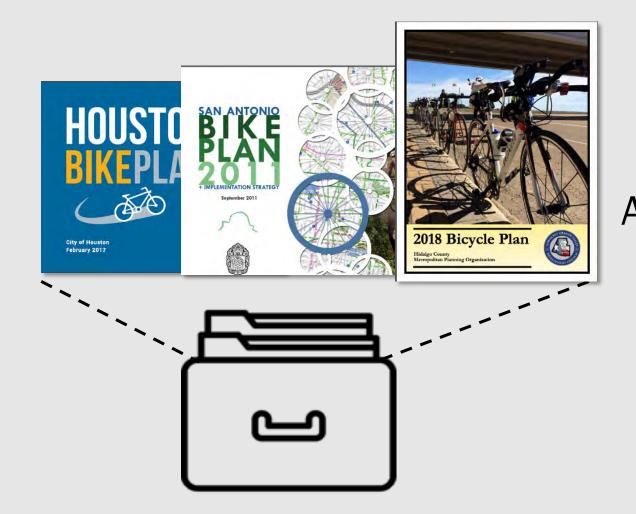

Active
Transportation
Plan
Inventory

What is the Active Transportation Plan Inventory (ATPI)?

A map-based, central repository of bicycle, pedestrian, or any other form of human-powered, non-motorized transportation (e.g., micro mobility, skateboarding, wheelchair use, etc.)

Goals of the Inventory

Provide a centralized inventory of active transportation plans across Texas.

Enable easy access to active transportation plan by engineers and the public.

Increase collaboration and coordination among planning professionals.

Facilitate the development of safe bicycle and pedestrian networks.

Why Should You Participate?

Your organization should contribute to the Texas active transportation plan inventory because...

Roadway designers will have easy access to your community's vision for building bicycle and pedestrian infrastructure and networks.

Planning professionals can easily find examples of different types of active transportation plans, goals and actions, and performance measures.

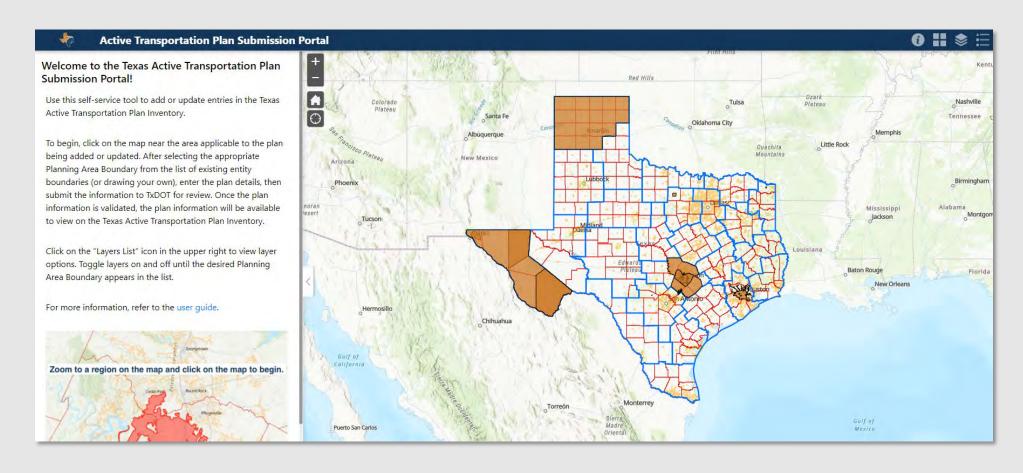

Awareness can facilitate coordinated and seamless transitions between communities to create integrated active transportation networks.

Local and regional entities can benchmark against their peers.

The more plans in the inventory, the greater the opportunity for statewide collaboration.

All these benefits combine to encourage safer and more sustainable active transportation networks in Texas!

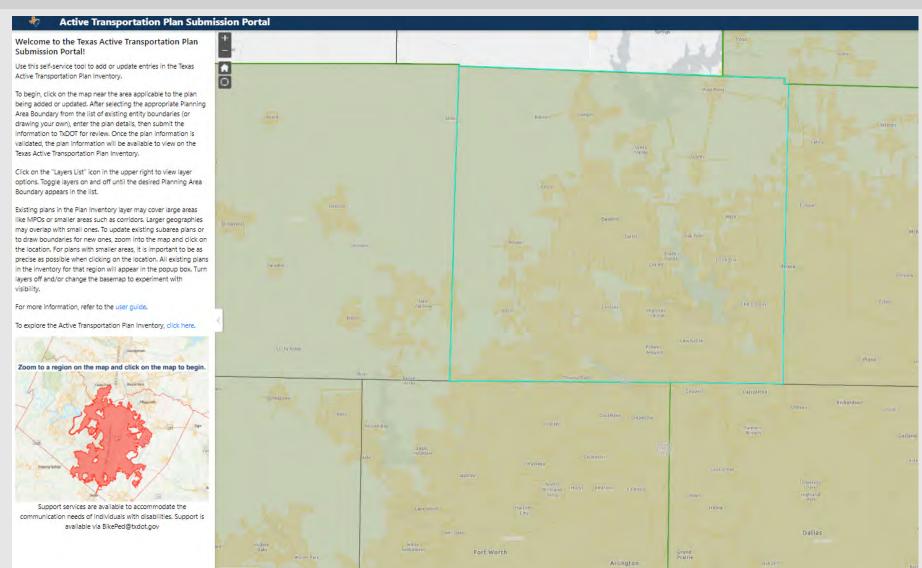

Plan Submission Portal

TxDOT Roadway Design Manual

Updated Bicycle Accommodation Design Guidance

BICYCLE AND PEDESTRIAN ADVISORY COMMITTEE MAY 18, 2022
JULIE ANDERSON, SR. TRANSPORTATION PLANNER

UPDATE

- At the May 2021 BPAC meeting, Ken Mora with the TxDOT Design Division/Roadway Design Section presented the Interim Guidance for Design Practices to Accommodate Bicycles, in anticipation of being included in the updated Roadway Design Manual (RDM)
- The Federal Highway Administration approved the RDM updates this summer.
- The updated Ch 6., Sect. 4 Bikeway Facilities emphasizes "context" considerations and Bikeway Planning Principles: safety, comfort, connectivity, and cohesiveness
- TxDOT Districts are currently using the updated bicycle facility guidance for new projects

New TxDOT RDM has been published!

UPDATE

Roadway Design Manual

- Chapter 6: Special Facilities
 - Section 4: Bicycle Facilities

http://onlinemanuals.txdot.gov/txdotmanuals/rdw/bicycle_facilities.htm

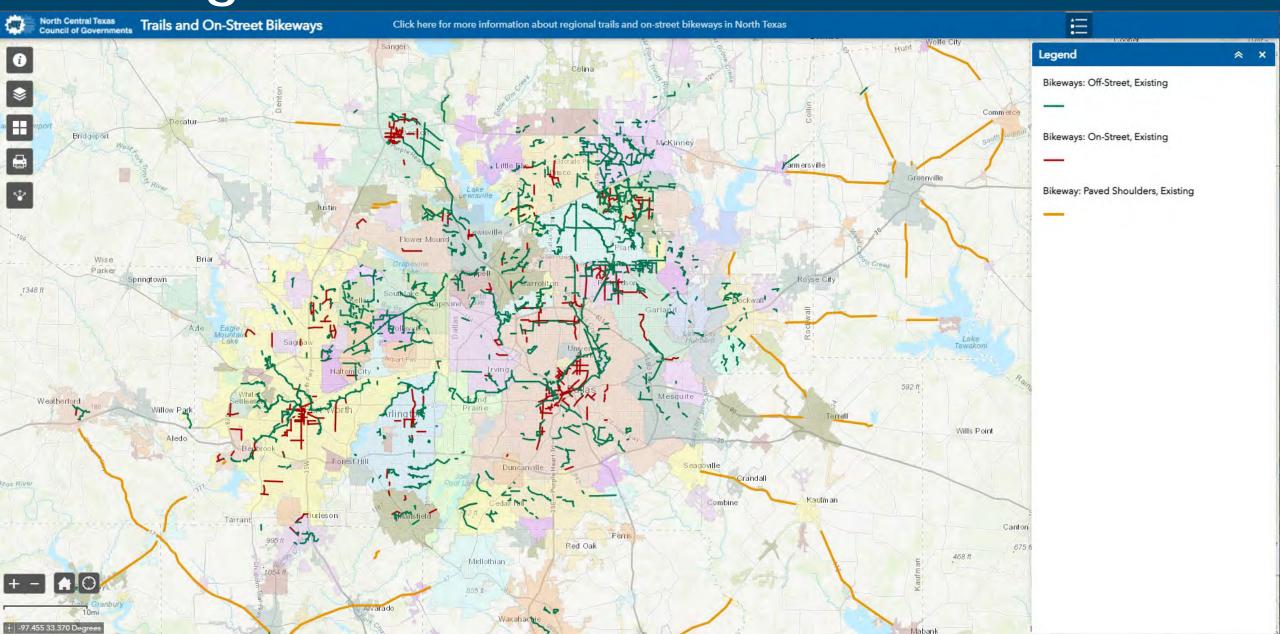

Bicycle and Pedestrian Advisory Committee

May 18, 2022

Background

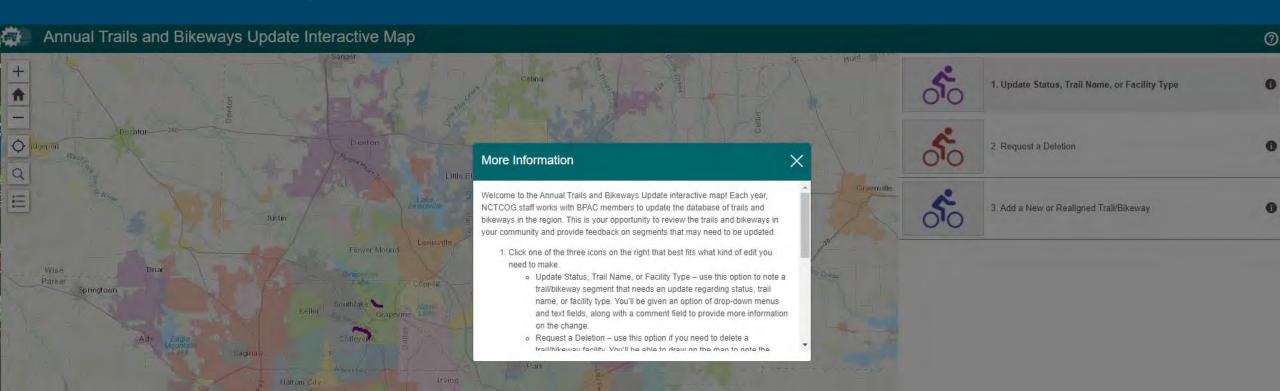

Methods of Making Annual Edits 2021

Process used in 2021

Provide edits via the online interactive map

- Manually add suggested edits (new trails/bikeways alignments, deletions, trail names, etc.)
 by drawing and commenting on the GIS online map.
- Works for everyone. No GIS license is required.

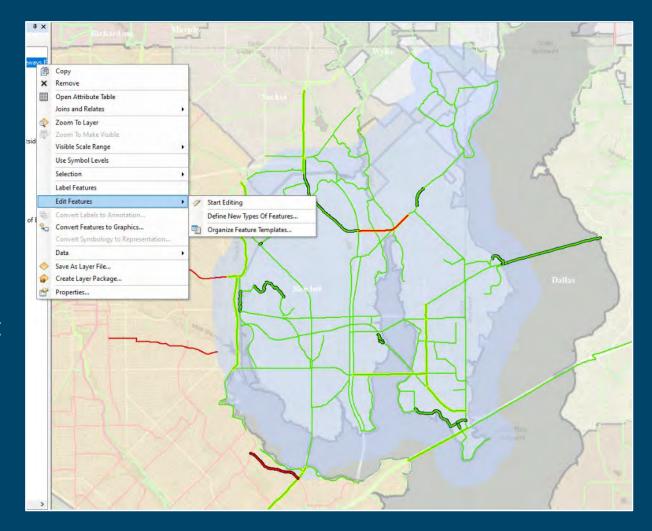

Methods of Making Annual Edits 2022

2021 Process PLUS a new process

Make edits via a GIS "check-out" process through ArcGIS desktop

- Users suggest trails and bikeways edits/updates by editing a "checked-out" replicated-shapefile of NCTCOG's current GIS trails and bikeways network.
- Requires a GIS license.

Survey Questions

- Do you or someone on your team have access to ArcGIS?
- Would your city rather provide edits online or via GIS data

Respond to Microsoft
Forms survey in the chat,
or scan the QR code with
your phone

Next Steps:

- NCTCOG staff will refine the process as necessary to launch by August 2022
- Overview of the Annual Update process at the August 17, 2022 BPAC meeting
- Data collection and updates (Aug-Nov)

Purpose of Demand Zones for Walking and Bicycling

- Define and locate areas in the region with the potential highest demand for walking and bicycling travel
- ☐ Integrated into Mobility 2045 (2022 Update)
- May be used to prioritize future regional investment of federal transportation funding for walking and bicycling infrastructure

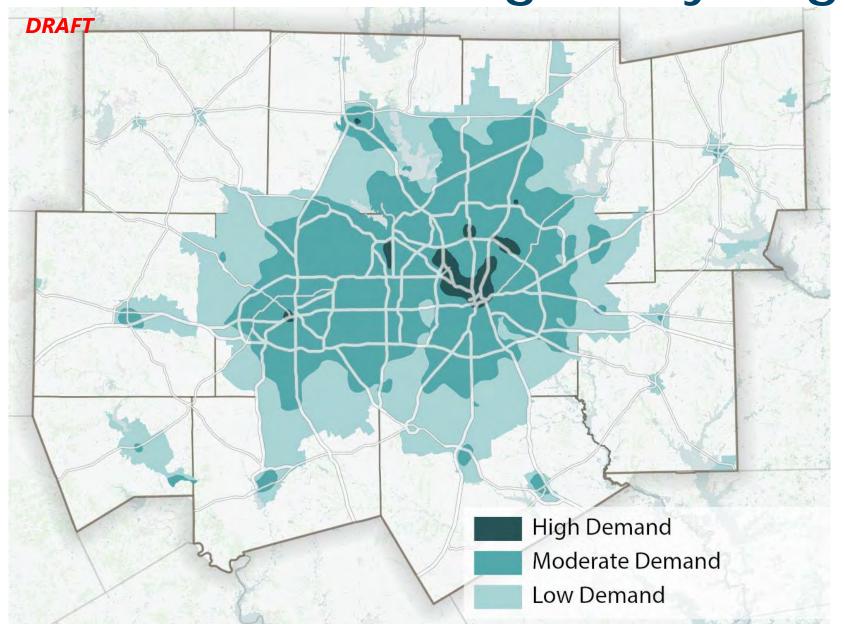

Criteria for Creating Demand Zones

Criteria	Data Source	Data Boundary	Weight
Population & Employment Density	NCTCOG 2020 Population Estimates NCTCOG 2019 Employment Estimates (pre-COVID impact)	2020 Census block group 2010 Census block group	35%
High Density of Short Trips	2019 LOCUS location-based cell- phone service data (trip distance up to 2.5 miles)	2010 Census block group	20%
Density of Low-Income Populations	2019 ACS 5-year estimates (NCTCOG Environmental Justice Index)	2010 Census block group	15%
Density of Zero-Car Households	2019 ACS 5-year estimates (NCTCOG Environmental Justice Index)	2010 Census block group	15%
Density of High Vehicle Congestion	NCTCOG speed data for Level of Service (LOS)	2010 Census block group	15%

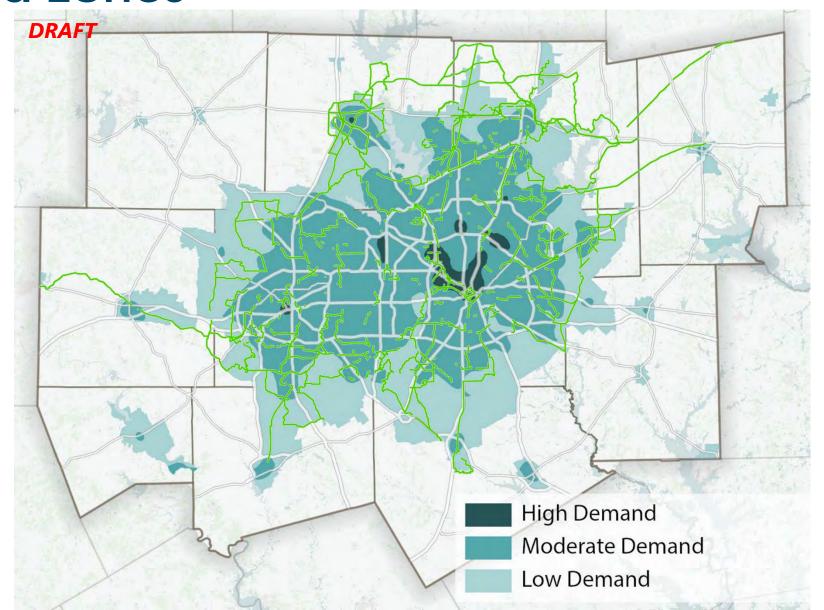

Demand Zones for Walking & Bicycling

Planned Regional Veloweb Overlayed on Demand Zones

Priority Areas to Improve Facilities for Accessibility Mobility 2045 (2022 Update)

- ☐ Public transportation facilities (transit stations and bus stops)
- □ Destination density (e.g., mixed-use/transit-oriented development areas, employment centers, central business districts, education institutions, neighborhood services, community centers)
- □ Safe crossings of existing travel obstacles (e.g., major roadways, interstate interchanges, railroads, and bodies of water)
- □ Neighborhoods with transit-dependent populations
- ☐ Areas with pedestrian and bicycle safety concerns and high rates of crashes
- □ Routes of statewide and regional significance identified by the Texas Department of Transportation Bicycle Tourism Trails Study

Project Schedule

May 18, 2016	BPAC Briefing Intro to need for demand zones, overview of examples from around the country, sample methodology
August 21, 2019	BPAC Briefing Initial discussion of criteria to be used to identify priority zones for investment
May 19, 2021	BPAC Presentation and Discussion
August 21, 2021	BPAC Discussion Using Demand Zones to Prioritize the Regional Network
Aug '21 - Feb '22	Refine and Finalize Demand Zones
May 18, 2022	BPAC Presentation Final Demand Zones
May 2022	STTC: Mobility Plan 2045 (2022 Update)
June 2022	RTC Adoption of the Mobility Plan 2045 (2042 Update) which includes Demand Zones

STATE BPAC UPDATE

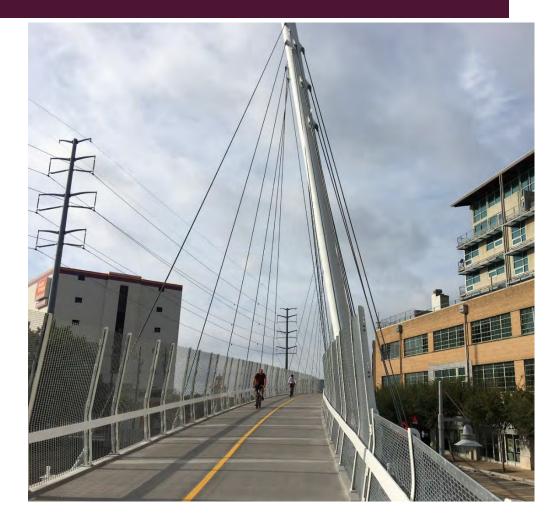

BICYCLE AND PEDESTRIAN ADVISORY COMMITTEE MAY 18, 2022

FUTURE STATEWIDE TRANSPORTATION ALTERNATIVES FUNDING OPPORTUNITY

- New TxDOT program to urban areas.
- "Any area funds" of the state will be available for a call for projects.
- Discussion on possible focus on high impact projects in urban areas.
 (~\$10+ million minimum)
- State July BPAC meeting anticipated to include draft rulemaking
- The State's Call is anticipated to open late Fall 2022

Source: NCTCOG

FUTURE STATEWIDE TRANSPORTATION ALTERNATIVES FUNDING OPPORTUNITY

 TxDOT staff will be forwarding a survey to local governments
 (please copy NCTCOG staff with your survey responses)

 NCTCOG staff can help formulate project ideas and assist with local application submittals

Eligible Project Activities

DRAFT

May include:

- Shared-Use Paths (Trails)
- On-Street Bikeways
- Protected Intersections
- Sidewalks, Crosswalks, Curb Ramps
- Safe Routes to School Plans and Projects
- Pedestrian & Bicycle Safety Countermeasures
- Traffic Controls and Calming Measures
- Signage
- Road Diets

Project Application Categories

Active Transportation

Safe Routes to School

Safe Routes to Transit

Safety

Safe Routes to School

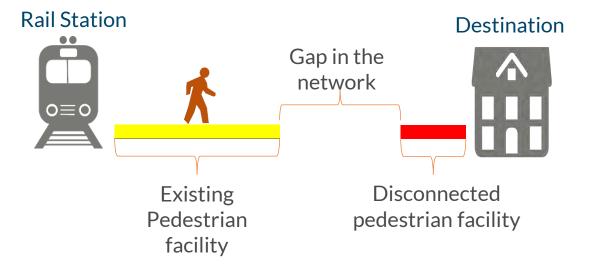

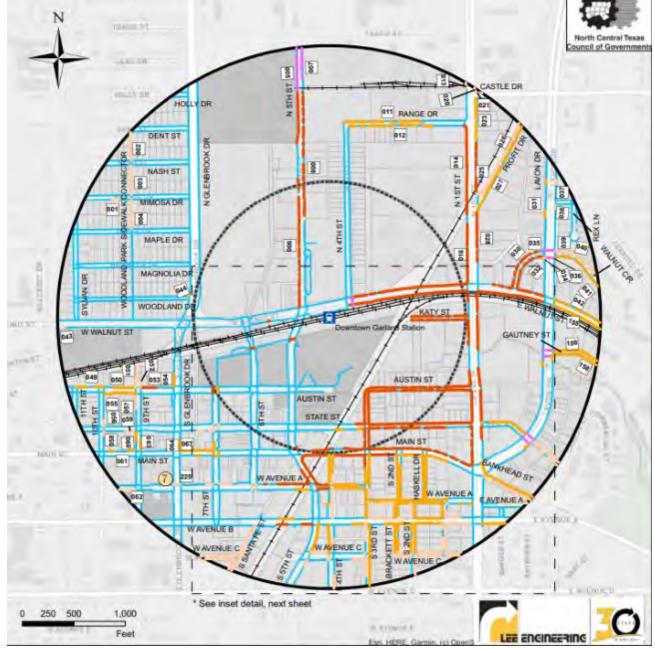

Safe Routes to Transit

Safety FHWA's Proven Safety Countermeasures (PCS) Tools

https://safety.fhwa.dot.gov/provencountermeasures/

PEDESTRIAN/BICYCLIST

Crosswalk Visibility Enhancements

Bicycle Lanes

Rectangular Rapid Flashing Beacons

<u>Leading Pedestrian</u> <u>Interval</u>

Medians and Pedestrian Refuge Islands in Urban and Suburban Areas

<u>Pedestrian Hybrid</u> Beacons

Road Diets (Roadway Reconfiguration)

Walkways

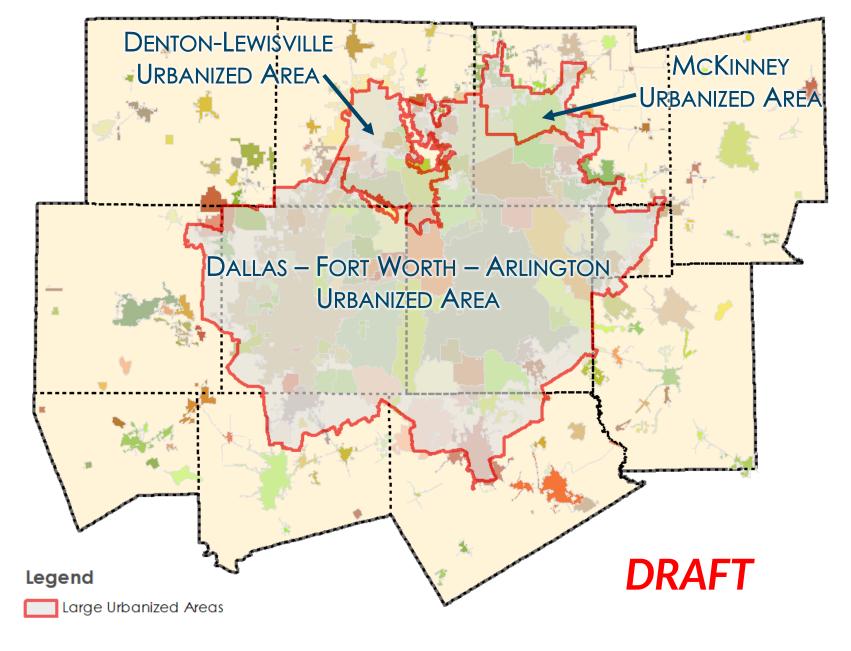

Eligible Project Sponsors

- Local Governments
- Regional Transportation Authorities
- Transit Agencies
- School Districts, Local Education Agencies, or Schools
- Tribal Governments
- Other local or regional governmental entity with responsibility for oversight of transportation or recreational trails

Eligible Project Areas

All proposed projects must be within one of the three urbanized areas (exceeding 200K population)

Funding Overview

Approximately \$40 million in federal funding is anticipated.

Minimum Federal Funding Award per Project for Construction	Maximum Federal Funding Award per Project
\$500,000	No Limit

*Safe Routes to School *Plans* and *Education Campaigns* may have a lower minimum funding award

- Construction-implementation focus.
- Engineering/design and environmental to be 100 percent locally funded.
- Minimum 20 percent local match required for construction.
- Local match must be cash or TDCs no in-kind contributions.
- Agencies are eligible to request TDCs in lieu of a local match if qualified through the MTP Policy Bundle process.

Milestone	Date
Surface Transportation Technical Committee (STTC)	June 24, 2022
- Action on Call for Projects	Julie 24, 2022
Regional Transportation Council (RTC)	July 14, 2022
- Action on Call for Projects	July 14, 2022
Call for Projects Opens	July 18, 2022
Call for Projects Public Workshop	July 19, 2022
Call for Projects Closes (Applications Due by 5PM)	Sept 9, 2022
Review of Projects/Scoring by NCTCOG Staff	Sept – Oct 2022
Public Meeting	Nov 2022
Surface Transportation Technical Committee (STTC)	Dec 2, 2022
 Action to Approve Selected Projects 	DEC 2, 2022
Regional Transportation Council (RTC)	Dec 8, 2022
 Action to Approve Selected Projects 	DCC 0, 2022
