<sup>1</sup> "Y" stands for "Included" and "N" stands for "Not Included" in conformity network year.

<sup>2</sup> Further study and stakeholder coordination required to determine the rail mode of all or a portion of these corridors. Any other mode than regional rail selected for these corridors would require revisiting the forecasted capital cost value.

<sup>3</sup> Further study required for northern terminus of Cleburne Line operation as its projected to share track and stations with TEXRail between Fort Worth Central and Berry/TCU stations; capital cost reflected for Cleburne line assumes TEXRail project covers improvements needed on shared track sections.
