2/8/20	 <p>REASON WHY YOU SHOULD PICK UP AFTER YOUR DOG #5</p> <p><b>FECES PUTS OTHER DOGS AT RISK</b></p> <p>Parvovirus is a serious, highly contagious disease that can affect dogs of any age. A dog may be a carrier of the disease without even showing signs of being infected. The virus can remain infectious on the ground for six months or longer!</p> <p><b>DOO THE RIGHT THING</b></p>	<p>Have you heard about the dangers of Parvovirus? It's a very serious and contagious disease that affects a dog's intestine lining. This can lead to the dog vomiting, having a loss of appetite, depression and even death. "Doo" your part to stop the spread of parvovirus and pick up after your pet!</p> <p>Learn more at <a href="http://dfwstormwater.com/petwaste">dfwstormwater.com/petwaste</a>.</p> <p>#DooTheRightThing #DogPoo #DogParent</p>

We know you think  
it's gross, but you  
still have to  
pick up the poo...

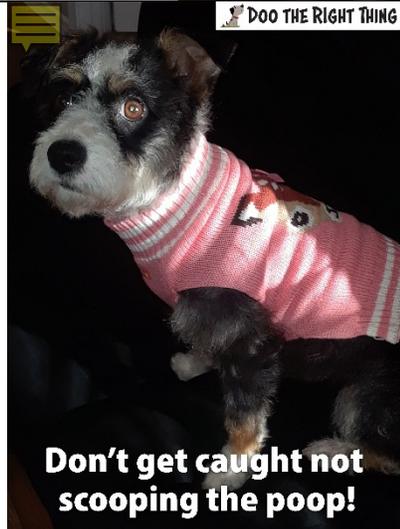

DOO THE RIGHT THING

The excuse of “Dog poo is smelly and gross!” is not a good enough reason to leave it behind. When you adopt a dog, you are also adopting the responsibility of picking up it’s poo. Protect water quality and community health by always “doo-ing” the right thing.

You can learn more about this issue at [dfwstormwater.com/petwaste](http://dfwstormwater.com/petwaste).

Don't get caught not  
scooping the poop!

DOO THE RIGHT THING

Tag someone whom you’ve caught leaving pet waste behind...

When you choose to not scoop the poop, whether on a walk or in your yard, you are polluting our waterways which lead to our streams, rivers and lakes. You are also putting yourself, your community, and other dogs at risk for contracting diseases or parasites. “Doo” the right thing by picking up the poop!
