Council of Governments**

Mission Statement

We are an association of, by, and for local governments. We assist our members in planning for common needs, cooperating for mutual benefit, and recognizing regional opportunities for improving the quality of life in North Central Texas.

North Central Texas Council of Governments

Values:

REGIONALISM

We believe regionalism is the cornerstone of our existence, and that our unique regional perspective provides us the vantage point to address issues that extend beyond traditional boundaries. It is our goal to be the catalyst for building consensus from diverse viewpoints and maximizing regional unity.

GOVERNANCE

We feel that policy decisions are best made by the level of government closest to the people. Therefore, we directly involve local governments in our decision-making process, which is made up of an executive board of local elected officials and regional citizens with support from numerous study, technical, and policy committees.

SERVICE

We seek to provide high quality service to our members. Our charge is to work with our local governments and other service providers to identify the most useful and beneficial plans, services, and products to satisfy their needs, and, then, to provide them in a courteous and timely manner.

EMPLOYEES

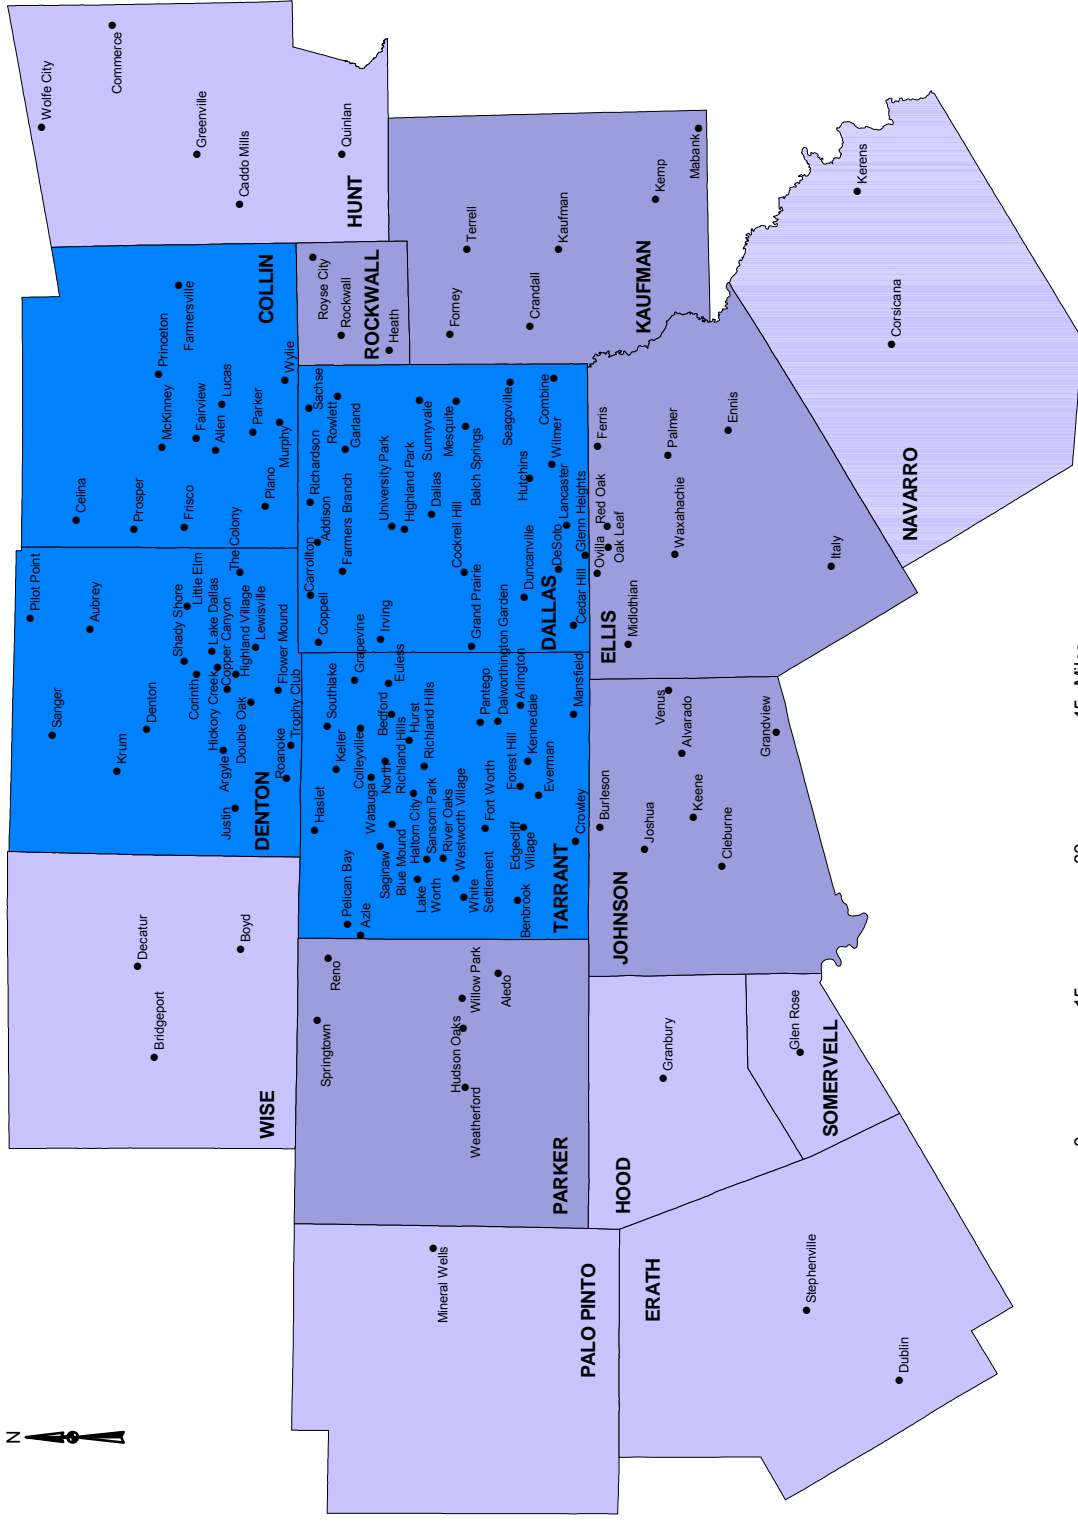

We value our employees and respect both individual excellence and dedicated teamwork. We support the principles of professional development, fair and consistent personnel practices, and competitive compensation.

ETHICS

We maintain the highest standards of professional integrity in providing competent, technically sound products and services. Honesty and impartiality are minimum standards for all our dealings with our members, the general public, other agencies, and each other.

INNOVATION

We recognize that our members are best served by our ability to anticipate the consequences of dynamic change. We, therefore, will help local governments find innovative solutions to both existing and future challenges facing North Central Texas.

North Central Texas Council of Governments

September 25, 2008

THE HONORABLE PRESIDENT AND EXECUTIVE BOARD MEMBERS

NORTH CENTRAL TEXAS COUNCIL OF GOVERNMENTS

Dear Policy Leaders:

We are pleased to present the 2009 fiscal year budget for the North Central Texas Council of Governments. The program of work funded by this budget addresses our mission of providing timely and effective services to our membership. We believe the budget also makes the most efficient use possible of the available resources entrusted to this agency.

Total budgeted expenses for 2008-2009 are \$204,333,000 of which \$126,498,000 is classified as pass-through and \$4,343,000 as in-kind funds. This leaves \$68,515,000 after interdepartmental charges for agency operations, which have the purpose of providing direct services and project coordination for our membership. By comparison, the 2008 budget had projected total expenses of \$215,800,000 with pass-through funding of \$134,844,000 and in-kind of \$3,938,000. The resulting local operating budget after interdepartmental charges was \$77,018,000.

Program expenses have decreased by \$12,387,000 from last year. The following table provides a comparison of expenditures by department for FY 2009 and FY 2008:

PROGRAM EXPENDITURES	Fiscal Year 2008-2009	Fiscal Year 2007-2008	Amount Change	% Change
Agency Management	\$ 814,000	\$ 1,102,000	\$ (288,000)	-37.6%
Agency Administration	5,737,000	4,580,000	1,157,000	26.2%
Public Affairs	405,000	425,000	(20,000)	-4.9%
Research & Information Services	6,260,000	5,641,000	619,000	12.4%
Community Services	17,921,000	29,553,000	(11,632,000)	-58.4%
Environment & Development	6,213,000	4,788,000	1,425,000	27.8%
Transportation	118,384,000	117,087,000	1,297,000	2.5%
Workforce Development	45,330,000	47,501,000	(2,171,000)	-4.7%
Emergency Preparedness	3,269,000	5,123,000	(1,854,000)	-17.7%
TOTAL PROPOSED EXPENDITURES	\$ 204,333,000	\$ 215,800,000	\$ (11,467,000)	-7.9%
Less: Interdepartmental Transfers for Direct Charges and Indirect Overhead	(4,977,000)	(4,057,000)	\$ (920,000)	21.2%
TOTAL EXPENDITURES	\$ 199,356,000	\$ 211,743,000	\$ (12,387,000)	-8.8%

REVENUES FOR PROGRAMS AND SERVICES

Sources of revenue for the North Central Texas Council of Governments budgeted for FY 2009 are: (1) **Local revenues** of \$71,138,000, which account for 36% of total revenues; (2) **State and State administered grants** of \$113,744,000 which account for 57% of total revenues; and (3) **direct Federal grants** are \$14,472,000, which account for 7% of total revenues.

1) **Local Revenues: \$71,138,000**

- **Local contracts: \$64,723,000**

A significant amount of this category is reflected in fee-for-service contracts to local governments and the private sector by NCTCOG's Environment & Development department, the Research and Information Services department, and Emergency Preparedness department for such projects as Storm Water Management, I-Communities, and various emergency preparedness projects. The Transportation department's budget also includes a substantial amount of local funds for projects and grant matching requirements.

- **Local Government Annual Dues: \$645,000**

Dues for cities with populations under 2,000, school districts, and special districts are \$100 per year. Dues for cities between 2,000 and 5,000 in population are \$200 per year. Dues for cities over 5,000 in population are assessed on the basis of \$0.10 per capita in Dallas, Tarrant, Denton, and Collin Counties and \$0.08 per capita in the remaining counties. All counties are assessed on \$0.01 per capita (with a \$200 minimum). NCTCOG currently has 237 member governments consisting of 16 counties, 169 cities, 23 school districts and 29 special districts. A 1.9% increase in total revenue from dues is anticipated due to population growth in the area.

- **Emergency Preparedness Assessments: \$405,000**

This funding from member governments is entirely voluntary and is solely used for the operations of the Emergency Preparedness department. This department is responsible for the regional coordination of emergency planning.

- **Regional Training Center tuitions: \$314,000**

- **Regional Police Academy tuitions: \$538,000**

- **Regional Information Center sales: \$45,000**

- **Interest income: \$125,000**

- **Local government In-kind: \$4,343,000**

2) **State Administered Grants: \$113,744,000**

Many federal agencies have allocated funds to state governments for further distribution to local governments. These funds are passed through to the State then to NCTCOG primarily from the Department of Labor, Department of Health and Human Services, Department of Transportation, and Environmental Protection Agency. Additionally, criminal justice planning funds, solid waste planning funds and 9-1-1 planning funds are received directly from the State as a result of actions taken by the Texas Legislature.

3) **Direct Federal Grants: \$14,472,000**

The funding from these grants are primarily to the Transportation department for its continued development of transportation planning and air quality initiatives.

Pass through funds are not considered a part of NCTCOG's operating funds. They are defined as funds managed and administered by NCTCOG, but are passed through to local governments and community-based organizations. Total proposed expenditures in 2008-2009, net of interdepartmental transfers, amount to \$199,356,000. Of this amount, \$126,498,000 is considered pass through funds. These funds include support for selected programs such as the Stormwater Management Study; Area Agency on Aging Services; Workforce Development services; 9-1-1 services; and various external transportation studies.

MAJOR EXPENDITURE CHANGES FOR PROGRAMS AND SERVICES

A summary of work programs, special projects and services is outlined in detail for each department within the section of this publication entitled "The 2008-2009 Work Program." Therefore, the following information explains major expenditure changes from FY 2008 to FY 2009.

- **Agency Management: \$814,000**

Agency Management supervises the day-to-day operation of the agency; implements policy directives of the Executive Board; and maintains all records of the Board (official minutes, resolutions, bylaws, and appointments). This department also manages the Texas Review and Comment System and several local government professional roundtables.

- **Agency Administration: \$5,737,000**

Agency Administration is responsible for fiscal management, grants administration and budgeting; internal audit, administration of purchasing, human resources, insurance, the retirement system, records management, and office space; as well as operation of the supply/mail/copy center.

- **Public Affairs: \$405,000**

Public Affairs provides a variety of external services on behalf of the agency (news media/public relations; directories, newsletters, and special publications; presentations; and operation of the Regional Information Center) and certain internal services for all departments (meeting/workshop arrangements, graphic design and photography, switchboard, mailing lists, and special projects).

- **Research and Information Services: \$6,260,000**

Research & Information Services provides general technical assistance; population and employment forecasts; annual population, housing and employment estimates; land use information; development announcement reports; and tabulation/analysis of Census data. Support is provided to a regional Geographic Information System (GIS) and NCTCOG's internal computer network. Custom data analyses and special products are also provided on a fee-for-service basis. The FY 2009 budget for Research and Information Services has increased from FY 2008 by \$619,000 because of an increase in direct support for the Workforce and Transportation departments as well as the addition of voice over IP system to replace the current phone system.

- **Community Services: \$17,921,000**

- **Area Agency on Aging: \$9,178,000**

This budget includes in-kind expenditures for grant matching requirements of \$4.3 million. The Council of Governments and its Area Agency on Aging (AAA) will receive an estimated state allocation of \$4.9 million compared to last year's budgeted allocation of \$4.6 million. Approximately \$3.2 million or 65% of the \$4.9 million allocated to the Area Agency on Aging (AAA) will be passed through to community-based organizations within the region for services to senior citizens.

- **9-1-1 Emergency Planning: \$6,268,000**

NCTCOG provides planning, implementation, management, as well as on-going administration of the regional network of 9-1-1 systems. NCTCOG provides 9-1-1 coverage for approximately 150 local jurisdictions, including more than 300 public safety agencies in 13 counties and 5 cities in Dallas County. There is a \$7.9 million reduction in expenditures because of equipment replacement implemented in FY 2008.

- **Regional Police Academy: \$1,075,000**

This program offers basic peace officer instruction as well as advanced courses for law enforcement personnel. It is funded in part by tuitions and supplemented by a Criminal Justice Division grant of approximately \$550,000.

- **Public Safety Radio Communications: \$579,000**

This program received additional funding for the continued implementation of the Regional Interoperable Communications Initiative.

- **Regional Training Center: \$457,000**

The Regional Training Center provides a variety of employee development training programs for government agencies located in the North Central Texas Region.

- **Criminal Justice Planning: \$364,000**

NCTCOG's Criminal Justice Planning program assists local governments and non-profit entities with the development of programs and projects designed to address particular crime related community problems. There is no significant change in expenditures for fiscal year 2009. A shift of expenditure responsibility to the subcontractor for the Law Enforcement Analysis Portal (LEAP) program lead to a \$5 million reduction in expenditures.

- **Environment and Development: \$6,213,000**

The Department of Environment & Development supports numerous committees composed of local government officials and staff, representatives of business, industry, and nonprofit organizations, as well as private citizens to address a variety of projects and programs dealing with municipal solid waste, public works, building codes, storm water management, flooding, water quality, air quality, recycling, trails, and development.

- **Transportation: \$118,384,000**

The Transportation Department provides technical planning services in support of development, project selection, and implementation of transportation projects in the Regional Transportation Plan and Transportation Improvement Program. The Department also provides regional planning, major investment studies, travel forecasting, air quality analysis, transit and traffic operations planning, airport planning, and technical assistance to local governments. This budget has increased \$1.3 million due to federal and state legislation and local funding initiatives which will mainly fund air quality and sustainable development programs.

- **Workforce Development: \$45,330,000**

Workforce Development administers publicly funded employment and training programs for Collin, Denton, Ellis, Erath, Hood, Hunt, Johnson, Kaufman, Navarro, Palo Pinto, Parker, Rockwall, Somervell, and Wise Counties. The department provides staff support to the North Central Texas Workforce Development Board by providing planning, coordination, management, and oversight services. This budget is \$2.2 million less than last year due to Workforce Investment Act funding reductions. Of the \$45.3 million in funding, \$42.3 million will be passed through to provide services for the region's citizens.

- **Emergency Preparedness: \$3,269,000**

The primary mission of the Emergency Preparedness department is to build a foundation for lasting partnerships and proactive Emergency Preparedness in North Central Texas through advocacy, information sharing, and collaboration. This department's budget has a net decrease of \$1.9 million due mainly to the expiration of the social services block grant to aid Hurricane Katrina victims.

SUMMARY

This proposed budget is consistent with those of past years in terms of structure. In fiscal year 2009, NCTCOG will continue to accept new opportunities to provide services to its member governments. This budget provides a basis for regional problem solving through effective planning and coordination. It is with great pleasure that we present this budget to you.

Respectfully Submitted,

R. Michael Eastland
Executive Director

Monte C. Mercer
Deputy Executive Director

\$126,497,861 of NCTCOG's budget is passed through for the benefit of local governments and community-based organizations

DEFINITIONS:

Pass-Through: Funds administered by NCTCOG which are directly passed through to local governments and community-based organizations for their specific benefit along with funds for consulting services.

In-Kind: Contributed services provided primarily by community based organizations, such as local volunteer services. These "in-kind" contributions do not require the expenditure of cash by NCTCOG. They are, however, required as local match on grantor funds to carry out the basic work programs.

Operations and Services: Funds required for general agency administration and operation, including all professional staff and administrative support to manage NCTCOG's external programs and internal administration. This includes community support, direct services to local governments, consultant supervision, and administration of pass-through programs. In addition, both direct and indirect overhead in support of the staff (accounting, human resources, purchasing, office space, equipment & furniture, utilities, supplies, travel, etc.) are included in these funds.

Transfers for Direct Charges and Indirect Overhead: Costs for agency-wide internal administrative services which benefit all programs (accounting & finance, human resources, purchasing, print shop, meeting room space, network services, phone charges, etc.) are included in these funds.

TOTAL DUES					\$ 645,394	100.0%

The annual dues for cities under 2,000, school districts, and special districts are \$100 per year. Dues for cities between 2,000 and 5,000 are \$200 per year. Dues for cities over 5,000 are assessed on the basis of \$.10 per capita in Dallas, Tarrant, Denton, and Collin Counties, and \$.08 per capita in the remaining twelve counties. All counties are assessed on the basis of \$.01 per capita with a \$200 minimum. In accordance with the Bylaws of the North Central Texas Council of Governments, the local government membership dues are based on the population estimates as certified annually by the Council.

The Work Program

AGENCY MANAGEMENT PROGRAM SUMMARY

MISSION AND GOALS STATEMENT

Agency Management is the responsibility of the Executive Director's Office and includes providing staff support to the Executive Board. As the Chief Executive and Administrative Officer, the Executive Director's primary mission is to effectively and efficiently carry out the policies and directives of the Executive Board and supervise the day-to-day activities of the Agency. This office also maintains the official minutes, resolutions, bylaws and committee appointments records for the Board of Directors.

The goals and objectives for Fiscal Year 2008-2009 include:

Executive Board Support

- Coordinate the development and timely distribution of briefing and policy statements to assist the Board in making informed decisions at monthly Board meetings.
- Conduct a comprehensive orientation session for new Board members within one month of their election.
- Provide the Board adequate and timely opportunities to discuss policy issues related to the Annual Work Program and budget.

Membership Outreach and Support

- Conduct an annual meeting of the General Assembly in conjunction with a Mayors' and Council members' training workshop.
- Conduct meetings for City Managers to provide opportunities to discuss common issues and problems, to relate new or innovative approaches for delivery of municipal programs and to explore cooperative approaches to service delivery.
- Speak to educational, civic or professional organizations six to twelve times annually to inform them on current regional issues and promote regionalism.
- Serve as secretariat to the North Texas City Management Association and assist them in the facilitation of meetings and programs.
- Serve as Treasury to the Urban Management Assistants of North Texas receiving and depositing their checks and assisting with the collection of membership dues.
- Staff the NCTCOG Clean Air Steering Committee and represent the region on air quality matters with the Texas Commission on Environmental Quality, Environmental Protection Agency, and with the Texas Clean Air Working Group.
- Conduct and publish two information surveys for the membership relative to tax rates and fees for services.
- Provide timely responses to requests for information received from member governments, state and federal officials and local businesses on topics such as grants-in-aid, finance, planning and zoning, state and federal laws, economic development and local government operating procedures.

Staff Support and Development

- Hold at least one meeting each month with department directors to discuss common issues, to foster teamwork, to determine the best approach to implementing Board policy directives and to discuss emerging issues or future needs.
- Allocate time each week to visit individually with each director to assure that they are receiving the proper direction, support and resources to carry out their mission, to receive status reports on projects and to help guide their efforts in delivering services to the membership.
- Assure that the entire agency is receiving proper training on new laws and regulations which affect the organization or the membership, concerning new or better techniques of providing services, best personnel practices, technical changes or advances in applicable career fields and improving customer service.
- Meet with individual employees on any work-related concerns or problems within one week after request is received.

Texas Review and Comment System

- Coordinate intergovernmental review of approximately 400 anticipated requests for state and federal grants-in-aid from entities within the sixteen-county region.
- Provide technical, administrative and policy review is given to each request for funds to assure conformity with local, regional or state plans, and involves more than 50 meetings each year.

Special Projects

- Provide leadership and facilitate the development of special projects, which benefit the membership by saving money and by increasing productivity and/or effectiveness.
- Review and promote opportunities for member local governments to conserve public resources through cooperative arrangements.
- Facilitate Executive Board and local government involvement in the effort to achieve attainment of The Federal Clean Air Act within affected counties.
- Continue to assist member governments to accommodate new responsibilities as the federal and state governments devolve programs to local governments.
- Provide leadership and support for the Vision North Texas Program.

AGENCY ADMINISTRATION PROGRAM SUMMARY

MISSION AND GOALS STATEMENT

The Department of Administration provides the following services: purchasing, human resources, insurance, accounting, retirement system, budgeting and financial control, grant administration, internal audit, subcontractor fiscal monitoring, records management, office space, equipment management, centralized mail and office supply distribution and operation of the print shop.

The mission of this department is to provide administrative service for the functional departments within the agency, to develop an understanding of agency policy and operating procedures, to assist the functional departments with their financial management needs and to provide technical assistance to local governments in the area of current financial management practices.

The goals and objectives for Fiscal Year 2008-2009 include:

- Continue to address legislative changes within grant sources.
- Evaluation of technology to enable agency to have broader access to accounting information.
- Evaluation of accounting and human resource software functionality to meet organizational needs.
- Automation of budget preparation and creation of a multi-year financial plan.
- Preparation of the Comprehensive Annual Financial Report.
- Continue development of management information services to assist program managers in management of their respective areas.
- Evaluate and update guidelines for Request for Proposal agency process.
- Evaluate and update guidelines for legal contracts with vendors.
- Update guidelines for record retention procedures.
- Analysis and reporting of indirect costs and allocation.
- Analysis and reporting of fringe benefits costs and allocation.
- Review and make recommendations for health care options.
- Work with contractors to provide supervisory training for agency employees.
- Provide support for Government Finance Officer's Association of Texas roundtables.
- Work with local governments to establish a shared services plan.
- Work with local governments to establish performance measures.

PUBLIC AFFAIRS PROGRAM SUMMARY

MISSION AND GOALS STATEMENT

The Public Affairs Division, under the direction of the Executive Director's Office, facilitates effective communication to promote coordination among and participation by local governments and their officials in North Central Texas. This division serves as a distribution point for NCTCOG related reports, maps, and information; provides information to media representatives across the region; and provides staff with public information tools, and graphics design services.

The goals and objectives for Fiscal Year 2008-2009 include:

Disseminate Public Information

- Coordinate, provide graphics, edit and produce (a) *It's Your Region*, a monthly regional newsletter about NCTCOG activities and services; (b) the *Insiders Newsletter*, a monthly summary of the Executive Board agenda; and (c) a *Regional Directory*, an annual directory which lists elected and appointed officials in NCTCOG's 16-county region.
- Provide support to NCTCOG departments in the design and production of catalogs, brochures, fact sheets, newsletters, and other materials to market NCTCOG's services and activities.
- Serve as a distribution point for free information generated through regional planning activities and as a storefront for the sale of statistical data, maps, and publications.
- Provide receptionist to serve as the first point of contact and referral for telephone clients, in-house visitors, customers, and the general public.
- Provide a wide variety of internal services to the agency, including a monthly newsletter for NCTCOG employees; creative support (graphic design, page layout and editing, photography and scans, and printing specifications); routing of periodicals and other materials to staff; and maintenance of computerized mailing lists.
- Provide a wide variety of external services on behalf of the agency, including preparation and dissemination of news releases; major mailings to member governments; management of the central reception area, and response to telephone, visitor, and e-mail requests for assistance, information and referral.

**North Central Texas
Council of Governments**

RESEARCH AND INFORMATION SERVICES PROGRAM SUMMARY

MISSION AND GOALS STATEMENT

The mission of the North Central Texas Council of Governments' (NCTCOG) Research and Information Services (RIS) Department is three-fold:

1. To provide objective information and analysis on the development of the region for use in area planning and economic development activities
2. To support the information service needs of NCTCOG
3. To assist local governments in the implementation of information technology.

RIS develops and supports for both NCTCOG and the region:

- **Computer and Network Operations**
- **Regional Demographic Information**
- **Geographic Information Systems (GIS)**
- **Technical Services**
- **Shared Services**

Information on the region and RIS activities is provided to the public through a variety of publications and via the Internet World Wide Web.

COMPUTER AND NETWORK OPERATIONS

The goal of the Computer Operations group is to provide the technological foundation upon which the majority of the Agency's programs depend. The group accomplishes its goal by designing, installing, and providing post-installation support of the Agency's

- Centralized file storage and backup;
- Database servers;
- Web hosting servers;
- Desktop computers, printers, scanners;
- Local area network switching and connectivity;
- Local area network and desktop printing;
- Wide area network connectivity;
- Internet connectivity;
- E-mail services;
- Network security and virus defense; and
- Remote access, virtual private networking, and terminal services.

REGIONAL DEMOGRAPHIC INFORMATION

The RIS department supports a variety of demographic needs across North Central Texas. Data and analyses created with this program are used in transportation planning, environmental analysis, area economic development, and other projects that require information on demographic patterns in North Central Texas.

- **DEVELOPMENT MONITORING:** This program initiates, maintains, and improves development information required for regional and local projects, including commercial structures, major employers, single and multi-family residential, and land use inventories. This information is developed and coordinated with local jurisdictions and state organizations.
- **ANNUAL POPULATION AND HOUSING ESTIMATES:** This 30-year program surveys local jurisdictions for building permit information on local housing construction and reviews demographic trends in area cities and counties. Products resulting from these analyses include annual population and housing estimates publications detailing these trends by individual city and county, along with other public information summary reports distributed to local chambers, economic development organizations, and the general public.

- **DEMOGRAPHIC FORECASTS:** The NCTCOG Demographic Forecast provides long-range, small area population, household, and employment projections. Forecasts are created every five years, and typically forecast 30-35 years into the future. Forecasts are developed using a federally recognized land-use model that allocates households and employment to the various counties for a regional control total, then disaggregates the totals to forecast districts, cities, and counties. Local governments participate by reviewing estimates created by the model, and by offering additional data to improve the small area estimate accuracy. These forecasts are used in local and regional urban planning, economic development, homeland security, transportation planning, and various resource allocations.

GEOGRAPHIC INFORMATION SYSTEMS

The GIS department supports the GIS efforts throughout the agency and region and coordinates these efforts with the State and Federal organizations. In-house, this includes updating software, purchasing and installing new hardware, database management, updating GIS layers, building automated tools and coordinating agency-wide GIS efforts. Technical support for this quickly changing technology is a core component of this service. Support for our region is realized through cooperative purchases of data such as aerial photography, elevation contours, and planimetrics, the coordinating of the regional GIS meetings and training, and support for cities establishing a GIS through its yoUR GIS program.

- **AERIAL PHOTOGRAPHY:** The RIS department, along with assistance from TxDOT-Dallas, will continue to provide high quality orthophotography for the entire NCTCOG Region. This project coordinates the purchase and ongoing maintenance and support of orthophotography for over 100 members including counties, cities, local jurisdictions, state and federal agencies and will create a seamless aerial base map to be use in engineering and planning projects, as well as all aspects of Emergency Preparedness and 9-1-1 applications. This cooperative purchase program allows members to realize significant savings.
- **yoUR GIS:** This program assists members that need help developing their existing GIS program, or in initiating a new program for their area. By providing assistance from the GIS staff, we are able to offer expertise to our members while ensuring their development is compatible to the region, state and federal development of GIS-related data and methodology. This type of program also reduces the duplication of data by providing an avenue for free or inexpensive data that has already been generated by other entities throughout the region. The program promotes sharing between the members, as well as encourages better communication and cooperation between all entities.
- **REGIONAL GIS COORDINATION:** The RIS department holds its regional GIS meetings for all interested GIS professionals. These all-day meetings offer lectures and demonstrations by other GIS professionals on new technology and various GIS-related projects. It gives our members a chance to keep up with new developments in their profession, as well as improve communications between all members. 120+ participants attend these meetings.
- **GIS TRAINING:** The RIS department offers GIS and GIS-related classes to all GIS professionals on site and at our member locations. In addition to eliminating travel expenses, NCTCOG offers discounts of all of its classes to its members. These same classes are offered to the private sector for the regular rates
- **PLANIMETRICS:** The RIS department is coordinating the generation of Planimetrics (*building footprints, parking lots, road edges, sidewalks, fences, lakes, ponds, creeks, bridges and tree canopies*) for all interested members. By coordinating the project on a region-level, we are once again able to greatly reduce the acquisition cost for these types of data. This also assists our smaller entities with limited resources to benefit from this type of data that would not normally be available to them. Participating members are expected to realize at least a substantial savings.
- **GIS CLEARINGHOUSE:** NCTCOG's GIS Data Clearinghouse contains high-quality digital geographic data for the North Central Texas region. Data are available free to the public for use with Geographic Information Systems (GIS) or similar data management and analysis systems. Other data layers are available to NCTCOG members only. NCTCOG members may click here to log in or request a username and password to download these files.

TECHNICAL SERVICES

This program provides on-going support to the Agency and member governments implementing GIS, custom data processing and analysis, and Internet technologies. In addition to assisting other NCTCOG departments and local governments in developing information standards, RIS also acts as an information clearinghouse to local governments in North Central Texas. The department also provides Internet resources to its member governments.

- **ICOMMUNITIES:** Extensive internet mapping services are provided through the *iCommunities program*, combining powerful GIS, database, and Internet technologies. The interactive mapping tools developed through this program help local governments distribute key information to their constituents and to other communities in the region. Currently 27 local governments are taking advantage of this service.
- **WEB DEVELOPMENT:** The RIS department is responsible for designing and administering the Agency web site. This includes developing custom web applications to deliver interactive queries of NCTCOG data. In addition, the RIS department develops custom web applications for local governments. Examples include development and maintenance of the Dallas County Elections web site, a local government performance measurement web site, an online municipal fee survey, and an online emergency management contact system (LOCATE).
- **CUSTOM DEMOGRAPHIC ANALYSIS AND SUPPORT:** The RIS department serves as a technical support center for demographic information and analysis. This support includes custom demographic radius reports, custom maps, and general demographic information assistance. Requests for support come from NCTCOG staff, the general public, and local, state, and federal governments.
- **DATA APPLICATIONS:** RIS is supporting multiple enterprise databases that address key functions as diverse as employee health-care eligibility, accounting, auto inspections, demographic forecasts, live data analysis, tornado damage impacts, and geographic information system implementation. The goal is to provide efficient operational procedures, application development, and data analysis to improve decision-making for the agency and region. Web and interactive tools provide a window to over 7 terabytes of managed digital data, and innovative techniques are developed to make the data most useful to operational users. RIS works to merge the world of web, database, GIS, and data analysis together into a robust set of tools that bring multiple data sources together. Applications include:
 - Entity insurance data processing
 - Accounting system support
 - AirCheck Texas database support
 - Agency database application development
 - Severe weather data analysis for regional and federal programs
 - Transportation ITS database design support and development
 - GIS database consulting services for local governments

SHARED SERVICES:

This program is a series of initiatives designed to address the common needs of multiple local government agencies. These initiatives are defined entirely by member agencies to bring value through reduced cost, collaborative wisdom, consortium purchasing power, and reduced risk. Current initiatives include:

- Lawson ERP services
- OPEB Actuarial Services
- Monster Job Posting Collaboration

Several other programs are currently being reviewed to determine if they are appropriate additions to the Shared Services Initiatives.

COMMUNITY SERVICES PROGRAM SUMMARY

MISSION AND GOALS STATEMENT

The mission of Community Services is to provide assistance to disadvantaged elderly; planning, implementing, maintaining, and coordinating programs in criminal justice and public safety emergency communications; and offering training opportunities for law enforcement and other local government personnel. The functional program areas involved in carrying out this mission include: Aging, Criminal Justice, Regional Training (Law Enforcement and Local Government), Public Safety Radio Communications Planning, Auto Theft Prevention, and 9-1-1 Emergency Number Administration.

Aging

The North Central Texas Area Agency on Aging (AAA), which provides aging and caregiver services within the 14 counties surrounding Dallas and Tarrant counties, will contract with community-based organizations to provide nutritionally balanced meals in congregate settings and to homebound elderly at least 250 days during the year. Demand-response transportation will assist elderly riders in accessing doctors' offices, senior centers, and other community sites.

The AAA will provide and/or administer the following services at the regional level: Information, Referral and Assistance; Care Coordination; Benefits Counseling; Money Management; Ombudsman; Respite; Homemaker; Caregiver Support Coordination; Caregiver Education and Training, and Nursing Home Relocation.

The Ombudsman Program will serve all 86 nursing facilities in the AAA service delivery region by recruiting, training and placing at least one volunteer in each facility. In addition, it will advocate for the rights of persons who live in assisted living facilities.

Criminal Justice

The Fiscal Year 2009 Annual Criminal Justice Budget for North Central Texas will be developed to meet "Contract for Service" requirements with the Criminal Justice Division (CJD), Office of the Governor.

Technical and operational assistance to more than 225 public and private agencies will be provided for the development and implementation of community plans, new and continuation criminal justice programs, grant application workshops, preparation of grant applications, and to meet the administrative requirements of the Criminal Justice Division. Staff will assist county focus groups to update community plans for FY 2010 funding.

Support will be provided to the Criminal Justice Policy Development Committee, which sets policy consistent with the Criminal Justice Division's FY 2009 "Contract for Service". The Committee will recommend program priorities to the Executive Board for approval before sending priority lists to CJD.

On-site visits will be conducted for 100% of the "first time" grantees and other grantees upon request to assist them in developing their programs to meet Federal and State guidelines.

Project staff will continue to implement the Law Enforcement Analysis Portal (LEAP) project. The purposes of the LEAP project are multi fold:

1. Officer Safety – provide a mechanism for patrol officers to query multiple agency databases cached in a secure LEAP database, to receive focused information prior to making contact, in table form, about a vehicle, plate, or location, when those elements have been involved in weapons, assaultive, drug or gang activity.

2. Crime and Link Analysis – queries against the LEAP data cache will provide responses in summary table format, report format, or geospatially on a road map. Relationships among individuals, locations, and property are shown geospatially in a Link Chart assisting investigators in connecting the dots.
3. De-Confliction – A database analysis tool will provide agencies a query of both narcotics targets and narcotics events anonymously to enhance the safety of law enforcement officers and tactical operations.
4. Additional hosted software tools to complement the effectiveness and efficiency of justifications that request services, such as a LEAP RMS, which allows agencies access to hosted services at affordable prices by subscriptions rather than capital expenditure.
5. Other services and functionality may be added at a later date as deemed necessary by the LEAP Advisory Committee

Leap will eventually connect 511 law enforcement agencies along drug and human trafficking corridors, as well as the auto theft corridor to El Paso, Houston, San Antonio, Austin, and Corpus Christi. Cooperative agreements have been developed with Tarleton State University to provide LEAP services to their rural law enforcement service area in 30 counties; High Intensity Drug Trafficking Area's in Houston and Dallas will be connected via Automatic License Plate Recognition systems to identify vehicles of interest. In addition, discussions are continuing with neighboring states to implement LEAP's Analysis tools within their jurisdictions.

Regional Training Program

The Regional Training Program will offer a comprehensive schedule of training for law enforcement and other local government personnel.

More than 120 **law enforcement training** courses will be conducted at the Regional Police Academy for the law enforcement community. Peace Officers must meet the Texas Commission on Law Enforcement Officer Standards and Education (TCLEOSE) requirements of forty hours of training in a two-year training unit, and a total of eighty-hours of training in the two two-year training cycles, to include legislatively mandated training. An Off-Site Training Program conducted at local sites throughout the region allows officers in the outlying areas to also receive that training. In addition, depending on demand, a minimum of 8 and possibly a maximum 10 Basic Peace Officer courses will be offered for approximately 200 to 300 new recruit officers.

The **Regional Training Center** will offer approximately 112 programs during 2008-2009 at the RTC. Upon request, the training center will conduct off-site classes as desired. These programs will include training on topics dealing with Administration and Services, Code Enforcement, Finance, Storm Water Pollution Prevention Practices During Construction, Safety, Defensive Driving, Media Relations, Customer Service, Team Building, Planning and Zoning, Transportation, and Water/Wastewater. Courses leading to certificates in professional development are included in these scheduled training programs. The Regional Training Center will also host more than 40 Texas Commission on Environmental Quality Operator License Test sessions.

9-1-1 Emergency Number Planning

The NCTCOG 9-1-1 Program covers 14 counties and provides 9-1-1 services to 43 Public Safety Answering Points (PSAPs) in the region. A 44th PSAP has been approved and funded by the Commission on State Emergency Communications, but will not be installed for another year or so due to local planning, building and staffing issues. The Regional 9-1-1 Advisory Committee will continue to provide oversight of 9-1-1 planning.

The 9-1-1 program continues to administer the regional 9-1-1 system by managing existing projects and planning for the future of 9-1-1. Some of the main components of this program are:

- PSAP equipment and software upgrades
- Database management

- Database maintenance
- Wireless Phase I & II
- VoIP (Voice over Internet Protocol)
- GIS and mapping
- PSAP monitoring and state reporting
- 9-1-1 Networking and Contingency Planning
- Call taker training
- Providing TECLEOSE Telecommunicator training courses
- Public education program delivery
- Maintenance of the 9-1-1 system
- Monitoring of network and other 9-1-1 system components
- Integration of systems and agencies, network interconnectivity and implementation of new Next Generation 9-1-1 features

Amending the 9-1-1 strategic plan will continue to provide system enhancements to local governments' communications centers based on state allocation of funding. The 9-1-1 Program is currently focusing on Next Generation 9-1-1. Implementation of new 9-1-1 IP equipment and an IP network has begun. After this backbone is complete, NCTCOG will begin working on Next Generation 9-1-1 features and functionalities as well as interoperability, interconnection and integration.

Public Safety Radio Communications

Community Services will continue to coordinate the 42-county Region 40 Communications' activities leading to the allocation of 800 MHz and 700 MHz frequencies to reduce communications congestion and interference among public safety agencies.

Depending on the level of funding from various sources, Community Services will continue implementation of the Regional Interoperable Communications Initiative by moving towards Level Six, standards-based interoperability. Among this year's action items, are three primary tasks: Development of a Regional Interoperable Communications Plan, which will provide local agencies direction as they review their communications needs and plan for future systems; Development of a Regional Overlay, which will provide a foundation for interoperability throughout the region; and Development of a Funding Model , which will provide the mechanism for funding the repair and replacement of equipment, and migration to new technologies, as warranted. Additionally, Regional Standard Operating Procedures for using the overlay will be necessary as agencies connect to the interoperability foundation.

Community Services will coordinate and help develop training curricula and secure funding for training on equipment and the use of Regional Interoperability SOPs.

The Regional Interoperable Communications Governance Committee and Community Services' staff will continue to review and modify as needed, the Tactical Interoperable Communications Plan, so that multi-agency response will be consistent, proper for the event, and effectively managed. Governance Committee coordination will continue, also.

ENVIRONMENT & DEVELOPMENT PROGRAM SUMMARY

MISSION AND GOALS STATEMENT

As one of the fastest-growing regions in the country, with a population larger than that of many U.S. states and a regional economy that generates the fifth-largest GDP in the nation, North Central Texas faces some of the most challenging environmental and development-related issues in the nation. In FY09, the Department of Environment and Development will continue to play a leading role in advancing planning and practices that accommodate this growth while maintaining and improving environmental quality and overall quality of life in the region.

SEE Less Trash – Goals: Purchased materials are reused and recycled wherever possible, illegal dumping is significantly reduced, and remaining waste is handled in a safe manner at permitted facilities.

NCTCOG has adopted and the state has recently approved a SEE Less Trash long-range regional plan. Annually approximately \$1.5 million is made available to local governments for projects that further the objectives of the regional plan. This biennium, 56 local government solid waste projects are being funded. Regional initiatives occurring in FY09 include developing a Recycling Contract Negotiation Guidebook of resources for local governments; developing a Recycling Ordinance & Building Design Guidance Document to help local governments encourage and/or require recycling services in their jurisdictions; a Tire Remediation/Recycling Pilot Project that is exploring the potential for using scrap tires in road construction projects; and holding six “Senior Local Enforcement Official Workshops on Illegal Dumping” to help upper management develop effective local anti-dumping enforcement programs. Of particular importance in FY09 will be the updating of the Regional Solid Waste Plan with new action recommendations. These and other important activities are accomplished under the guidance of NCTCOG’s Resource Conservation Council and its subcommittees for Time to Recycle, Stopping Illegal Dumping, and Assuring Capacity for Trash.

SEE Safe Clean & Green – Goals: By 2025, North Texans will SEE SAFE waterways with CLEAN water within a regional ecosystem framework of GREEN watersheds.

NCTCOG has adopted the SEE Safe Clean & Green vision: SAFE waterways are ones where the risk of flooding is reduced and erosion of stream banks is stabilized. CLEAN water—in forms including rivers, streams, reservoirs, drinking water, and groundwater sources—meets desired goals for water quality and is available in sufficient quantity to support the needs of a growing population. GREEN watersheds are strategically planned and managed networks of natural lands, working landscapes and other open spaces, which protect, sustain or restore vital ecosystems, provide recreational and mobility opportunities, and contribute to the health and quality of life of people and communities.

Attention during FY09 will be placed on watershed-based collaborations such as environmental streamlining for the transportation long-range plan, public outreach through the Upper Trinity Watershed Partners, and pursuit of a regional ecosystem framework. Local governments will be encouraged to implement the site design manual for *integrated* Storm Water Management (iSWM), as well as participate in the preparation of a 2nd edition of the manual. In the on-going regional storm water program, NCTCOG is working with large and medium entities (Phase I) on storm water monitoring, as well as assisting more than 100 small entities (Phase II) with implementation and reporting for their first-time state permits. Other activities include continued support for the Trinity River COMMON VISION, assistance to local governments during the review of draft digital floodplain maps as a FEMA Cooperating Technical Partner, and assistance with Environmental Management System design.

Center of Development Excellence – Goals: Promote quality growth that enhances the built environment, reduces vehicle miles of travel, uses water and energy resources effectively and efficiently, and helps advance environmental stewardship in order to ensure continued economic vitality and provide

the highest attainable quality of life for all residents. We seek to have the North Texas region recognized as a center of development excellence.

NCTCOG's Executive Board has adopted a mission statement and 10 Principles of Development Excellence as a guide to local governments and the private sector as they plan and create future development/redevelopment in the region. During FY09, NCTCOG will be conducting a wide range of important activities under the following three broad headings:

- Sustainable Sites & Buildings, including building code review and adoption, establishment of a regional repository of best practices, promotion of Texas SmartScape for native & adaptive plantings, expanded attention to energy & water efficiency & effectiveness, consideration of "green building" policies, biannual CLIDE awards, and similar.
- Sustainable Public Rights-of-Way, with a new initiative under the guidance of NCTCOG's Public Works Council to assess the next steps necessary to achieve sustainable ROW's.
- Sustainable Communities and Region, with the next phase of the Vision North Texas private-public partnership featuring the creation of a "North Texas 2050" regional vision statement that describes the region's preferred future, and an action package that provides tools to create that future.

TRANSPORTATION PROGRAM SUMMARY

MISSION AND GOALS STATEMENT

The North Central Texas Council of Governments (NCTCOG) is the designated Metropolitan Planning Organization (MPO) for the Dallas-Fort Worth Metropolitan Area, including the urbanized areas of Denton-Lewisville and McKinney. NCTCOG's Executive Board provides coordinated regional policy direction and fiduciary oversight to the MPO process. The metropolitan transportation planning process is guided by the Regional Transportation Council (RTC) which serves as the independent policy body for transportation decision making. The RTC is comprised of 40 local elected officials and transportation agency representatives.

As the MPO, NCTCOG Transportation Department staff carries out planning and implementation activities utilizing multiple funding programs. The first of these programs is referred to as Transportation Planning Formula Funds. These federal transportation planning funds are received by NCTCOG annually through a formula allocation and are used to conduct regional transportation planning activities. This program is administered through the Texas Department of Transportation (TxDOT), which also provides the required 20 percent match. Major tasks addressed with this funding include developing and maintaining the Metropolitan Transportation Plan and Transportation Improvement Program, and monitoring travel demand and transportation needs through a Congestion Management Process. The Transportation Department also conducts and supports corridor investment studies, as well as provides technical assistance to local governments, TxDOT, the North Texas Tollway Authority (NTTA), Dallas Area Rapid Transit (DART), the Fort Worth Transportation Authority (FWTA), Denton County Transportation Authority (DCTA) and other local transit service providers across the region.

The second funding program is Transportation Planning Non-Formula Funds which includes other types of planning resources such as federal and State funding made available through the RTC to conduct special planning studies or contract services provided by NCTCOG staff. Examples of such service include work performed as a subcontractor to consultants providing travel forecasting assistance to transportation providers, technical assistance to the Texas Commission on Environmental Quality in addressing air quality issues, and use of Surface Transportation Program – Metropolitan Mobility category funding to perform large-scale planning and engineering feasibility studies.

The third funding program, Implementation Non-Formula Funds, supports programs that focus on the implementation of transportation and air quality strategies aimed at reducing traffic congestion and improving air quality. These programs, referred to as Management and Operations, are carried out in cooperation with the region's transportation providers and include air quality public information campaigns, the expansion of vanpool programs, and deployment of Intelligent Transportation Systems technology.

Funding provided by local governments for the implementation of sustainable development and air quality improvement projects represents the fourth category of funds used by the MPO. Through an innovative partnership between the RTC and local governments, the RTC programs funds to construct federally eligible regional transportation improvements for local governments. In many instances these projects are funded through a combination of federal, State and local funds assembled in partnership among agencies and local governments that allow for the expedited construction of projects that otherwise could not be built. As part of this program, local governments provide local funds that are used to streamline the delivery of sustainable development and air quality program projects. NCTCOG staff is responsible for the project selection recommendations to RTC, as well as the fund accounting associated with this program.

The fifth funding category is Regional Toll Revenue Funds. These funds are derived from approximately \$3.3 billion in concession payments to be paid by the North Texas Tollway Authority (NTTA) for the right to develop S.H. 121 in Collin and Denton Counties. The funds are dedicated for the implementation of

transportation and air quality projects as selected by the RTC in cooperation with local governments and transportation providers.

All of these programs are outlined in the Unified Planning Work Program for Regional Transportation Planning (UPWP), biennially prepared by NCTCOG staff, that provides a detailed summary of planning and implementation activities to be conducted over a two-year period. Transportation planning and implementation activities are carried out in the Transportation Department through various program areas. Ten program areas in the Transportation Department are designated to carry out the planning, fiscal programming and implementation of projects and programs. The following is a brief description of each of these program area activities for Fiscal Year (FY) 2008-2009.

Program Administration

General coordination, communication, and management tasks are essential to maintaining the planning process. The preparation and circulation of information relevant to regional transportation policy are major components of this program area's activities, including support to the NCTCOG Executive Board, Regional Transportation Council, and Surface Transportation Technical Committee. Also included is the development and monitoring of the Unified Planning Work Program. This program area also carries out general office management activities, including personnel recruitment and maintenance functions, and professional development opportunities. Another project in this area is the University Partnership Program, which provides funding for planning and research activities being carried out by participating universities to support ongoing NCTCOG transportation initiatives. Transportation training in the areas of planning, engineering, systems operations, maintenance, and geographical information systems for local governments and planning agencies is also supported in this area. In addition, funding is included in this budget for Transportation Department involvement in metropolitan transportation and air quality planning at the state level through the Texas Metropolitan Planning Organizations Roundtable (TEMPO) and at the national level with the Association of Metropolitan Planning Organizations (AMPO), as well as support for other affiliations.

Fiscal Management, Transit Operations, and Computer Systems

The implementation of numerous programs supported through grants and contracts from multiple federal, State and local agencies as well as the private sector requires extensive knowledge and resources to manage the fiscal requirements of these programs. Tasks including the development of grant applications, consultant procurement, purchasing, contract development and monitoring, expenditure reporting, and auditing are included in this program area. Development of the Transportation Department's annual budget is included in this area, including all five funding programs described previously. The oversight of funds coming to NCTCOG through various innovative funding programs, many of which are directed toward expediting transportation improvements, is a primary function of the fiscal management program area.

This program area is also responsible for public transportation funding and operations activities that focus on identifying opportunities for increased transportation services in the region. Ensuring that transportation is available for individuals with disabilities, low-income individuals, and the elderly is a critical aspect of this program area. A major emphasis in FY2008-2009 is implementation of the North Central Texas Regional Public Transportation Coordination Plan, which identified short-, medium-, and long-term strategies to move the region toward more seamless public transportation services. Several projects currently in progress include: implementing reciprocal recognition of Americans with Disabilities Act (ADA) Paratransit certifications; developing a regional vehicle-for-hire program; updating the region's Transportation Provider Inventory (TPI); and managing the Hurst-Euless-Bedford (HEB) Transit project. In addition, this program area supports NCTCOG's administration and oversight responsibilities as the Designated Recipient for the Job Access/Reverse Commute Program (Federal Transit Administration Section 5316), New Freedom Program (Federal Transit Administration Section 5317), and a portion of the Urbanized Area Formula Program (Federal Transit Administration Section 5307).

Also included is the management of computer systems necessary to support transportation and air quality planning activities.

Community Outreach

A primary goal of the Transportation Department is to maintain public involvement throughout the regional transportation planning process, in conjunction with federal requirements for active and ongoing public participation. A number of tasks aimed at educating and informing the public, including member governments and local elected officials, are continually being pursued. Publications such as Mobility Matters, the MPO quarterly newsletter; Local Motion, a monthly newsletter for elected officials, transportation articles of interest published in It's Your Region, the agency's monthly newsletter; and the Regional Mobility Initiatives, a report series aimed at summarizing ongoing planning and construction activities, are examples of ongoing community outreach and education efforts. State of the Region, an annual report on transportation system performance in North Texas, has been published annually since 2004. Increasing the communication among citizens, elected officials, and technical staff permits local entities to work together to achieve desired goals and objectives. The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), passed by Congress in 2005, placed extra emphasis on an MPO's efforts to engage the public in the transportation planning process. Elements of the Transportation Department's public outreach and education program include regular public meetings on regional transportation programs and topics, participation in various community events and forums, maintenance of the Transportation Internet site and fostering an open relationship with the news media. A comprehensive mailing list of agencies, neighborhood and advocacy groups, and transportation stakeholders is maintained and utilized to inform the public about transportation issues, as well as specific public meetings. The monitoring of federal, State, and local legislative initiatives are also conducted in this program area to assist local elected officials in ensuring that legislative actions at all levels of government contribute to improving the mobility and air quality of the region.

Transportation Project Programming

The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users renewed the responsibility of the Metropolitan Planning Organization to work with the Texas Department of Transportation, local governments, and transportation authorities to identify, evaluate, and select transportation improvements. The Transportation Improvement Program (TIP) serves as the mechanism for funding transportation improvements recommended in the Metropolitan Transportation Plan. All regionally significant ground transportation improvements, regardless of funding source, are inventoried in the TIP. Each year, NCTCOG Transportation Department staff engages in a number of activities related to the development and implementation of the Transportation Improvement Program. The TIP is prepared on a biennial basis with quarterly updates. A major emphasis for FY2008-2009 will be the development of the FY2010-2013 TIP document. A new focus in FY2008-2009 will involve tracking the implementation of new transportation projects in Dallas, Tarrant, Denton, and Collin Counties using over \$2.5 billion in toll proceeds from the S.H. 121 toll project. As part of this tracking initiative, the TIP database and information system will be completely overhauled to enable better project tracking. Finally, the implementation of projects using RTC/Local funding will continue.

Congestion Management, Safety, Security, and Sustainable Development

SAFETEA-LU requires that metropolitan areas with a population of greater than 200,000 develop and implement a Congestion Management Process (CMP). The CMP provides for the effective management of new and existing transportation facilities through development and implementation of travel demand, transportation system management and sustainable development strategies, and by providing information to decision makers on system performance and effectiveness of implemented strategies. The CMP seeks a "management" solution to a growing traffic problem by targeting resources to operational management and travel demand reduction strategies. The CMP is fully integrated into the region's transportation planning and programming process.

The CMP includes the development, implementation and monitoring of regional travel demand management strategies, including employee trip reduction, carpool/vanpool, park-and-ride, and transportation management associations. Transportation systems management (TSM) and intelligent transportation system (ITS) strategies are also part of this program. These strategies, which include intersection and signalization improvements, a freeway bottleneck removal program, intelligent transportation system projects, and special events management strategies, will be developed to reduce travel time and enhance system reliability. Transportation staff will also develop and implement a

Congestion Management Process Ordinance that will include the implementation of congestion management strategies during the planning, engineering, construction and operation stages of corridor development. In addition, collection and analysis of traffic data in the Dallas-Fort Worth region via low-level aerial photography was conducted and will be analyzed to enhance the North Central Texas Council of Governments information system for monitoring transportation system infrastructure and performance as part of the CMP.

Sustainable development strategies also reduce the demand for single occupant vehicle or drive-alone travel and are critical tools in the region's efforts to reduce congestion and improve mobility and air quality. In 2001 and again in 2006, the RTC funded a number of sustainable development projects which place a greater focus on the importance of coordinating land use and transportation investments in order to maximize the region's resources. Efforts in this program area will focus on monitoring progress toward implementation of these projects, as well as facilitating continued education and public outreach on sustainable development through NCTCOG's Center of Development Excellence. Development of improved bicycle and pedestrian facilities with continued emphasis on safety and access to transit systems and commercial developments will also be a key aspect of this program area's activities. The Sustainable Development area will also provide support for Transit Oriented Development (TOD) in the region. The program will provide education and project development assistance to local governments who are looking to create TODs as methods of reducing congestion by developing near transit hubs. Another sustainable development initiative will distribute funds provided by the U.S. Environmental Protection Agency for a Revolving Loan Fund Program for Brownfield clean-up which will provide for more in-fill redevelopment once contaminated sites have been remediated.

In conjunction with NCTCOG's Research and Information Services (RIS) Department, during FY2008-2009, Transportation staff will maintain and disseminate demographic data to support transportation planning efforts, monitor regional development trends for input into the forecast process, research new forecasting methodologies, develop new alternative demographic forecast scenarios for 2030 to support the Metropolitan Transportation Plan, and assist RIS staff with the development of new regional demographic forecasts through the year 2040.

Transportation Department staff will also conduct planning efforts to develop safety policies, programs, and projects. In an effort to improve transportation safety related to pedestrians, bicycling, transit, roadways and highways, staff will evaluate crash data and continue the development of the Dallas-Fort Worth Regional Safety Information System. Coordinated efforts with NCTCOG's Emergency Preparedness Department will also continue to support local, State, and federal initiatives to address transportation system security and emergency preparedness planning. The North Central Texas Council of Governments continues a dialogue among local governments and transportation providers in North Central Texas regarding the regional coordination of response plans, response capabilities, and emergency medical services in the event of a major incident. Staff also provides technical transportation data needed to support these planning efforts as well as to facilitate the coordination of various transportation providers and planning agencies.

The Transportation Department is responsible for the development, integration, maintenance, and dissemination of transportation data and information. This activity focuses specifically on the development of web-based applications for use in the sharing and collecting of a variety of transportation and air quality data. This element includes both the improvement of existing Internet/Intranet applications and the creation of new ones. Another aspect of this program area is to manage and coordinate Geographic Information System (GIS) technologies so that they can be effectively utilized for transportation planning; this may include study, development, design, training, and maintenance activities. Finally, staff may commence development of an Asset Management System that will ultimately help the North Central Texas region in finding a successful balance of preserving, upgrading, and replacing transportation assets.

Travel Model Development and Data Management

The Transportation Department plays an important role in the development of travel forecasts that are used to support the planning of freeways, toll roads, high occupancy vehicle lanes, passenger rail

systems, and other transportation improvements. The continued development of travel models is coordinated with regional transportation and air quality planning activities and represents a significant portion of the activities included in the Unified Planning Work Program. A major emphasis of this program area is the ongoing development and implementation of a regional travel model and preparation of a transportation information system.

The travel model is a microcomputer-based travel forecasting tool that enables transportation planners to evaluate a wide range of future transportation projects. The information system is closely related to the development of the models and is used to gain past and present knowledge of the transportation system. Efforts during FY2008-2009 will focus on the maintenance and improvement of the travel model, including the enhancement of modeling tools incorporating improved behavioral models and traffic micro simulation, data collection and sharing via NCTCOG website, development of new travel models, and support for the land-use model maintenance and improvement efforts. Improvements in background data storage and communication systems will also be areas of focus in order to create an enhanced system for the management of huge amounts of data.

Air Quality Planning and Operations

The Clean Air Act Amendments of 1990 and SAFETEA-LU call for the integration of transportation and air quality planning activities at local, State, and federal levels. Effective June 15, 2004, the Environmental Protection Agency introduced the new 8-hour ozone standard with a corresponding moderate non-attainment area, including Collin, Dallas, Denton, and Tarrant Counties and expanded to include Ellis, Johnson, Kaufman, Parker and Rockwall Counties. Since that time, the Transportation Department staff has worked with the Texas Commission on Environmental Quality (TCEQ) to identify control strategies and transportation control measures for inclusion in the State Implementation Plan (SIP). During FY2008-2009, efforts will continue to focus on the development and implementation of emission reduction strategies across the nine-county non-attainment area designed to reduce travel demand, implement new technologies, and inform the public regarding the importance of improving the region's air quality. These programs will be pursued as part of a coordinated and comprehensive planning approach to the region's air quality problem. The RTC has provided Surface Transportation Program--Metropolitan Mobility, Congestion Mitigation and Air Quality Improvement Program, and local funding to support NCTCOG's involvement in these efforts.

Major initiatives among these in FY2008-2009 is continuing the AirCheckTexas Vehicle Repair and Replacement Assistance Program, funded in part through TCEQ and in part through RTC funding; marketing, education, and assistance efforts directed towards the implementation of programs designed to improve air quality; and other programs identified in the SIP. NCTCOG staff regularly conducts an air quality conformity analysis in the non-attainment area, which is a quantitative assessment to ensure that the region's air quality is not worsened through the implementation of transportation projects and programs included in the Transportation Improvement Program and Metropolitan Transportation Plan. In addition, NCTCOG staff will also provide assistance to TCEQ by conducting technical studies used to assist in various air quality modeling procedures.

Transportation Planning

Federal planning regulations require that metropolitan areas have a Metropolitan Transportation Plan in place that identifies both major transportation improvements including freeways; toll roads; high occupancy vehicle/managed lanes; rail facilities; bike and pedestrian facilities; and transportation programs such as sustainable development, congestion management, safety and security. During FY2008-2009, staff efforts will focus on monitoring and refinement of Mobility 2030: The Metropolitan Transportation Plan adopted by the Regional Transportation Council in January 2007. This will include processing amendments to the Plan to incorporate the latest planning information for each major corridor as they proceed in the project development process.

For projects identified in the Metropolitan Transportation Plan, NCTCOG Transportation Department staff works with the region's various transportation agencies on detailed corridor studies to evaluate transportation alternatives and to address transportation-related issues such as local government land-use policies, neighborhood and community goals, and economic development. These detailed corridor studies

may be performed as part of the federal National Environmental Policy Act (NEPA) process or independently. In all of these studies, NCTCOG Transportation Department staff performs a variety of functions in support of the corridor study process ranging from the facilitation of meetings and consensus building to the development of detailed travel forecasts to support the evaluation of alternatives, environmental justice evaluations, and mobile source air toxics analysis. The Transportation Planning program is responsible for integrating concerns for the social, cultural, and natural environment early in the transportation planning process. Several initiatives will continue through FY2009 to identify potential environmental impacts and develop mitigation strategies that can be used to avoid, minimize, or mitigate potential environmental impacts. These efforts will result in the identification of strategies and an environmental impact analysis of the roadway and transit recommendations in the next Metropolitan Transportation Plan update. Transportation Planning area staff also serves as the environmental justice coordinator for the Transportation Department providing technical and policy support to other program areas.

The Transportation Department also provides support to local governments to conduct thoroughfare planning. Each year, cities and counties in North Central Texas request assistance from NCTCOG for the development of thoroughfare plans. Transportation Department staff efforts focus on the preparation of travel forecasts to support local government efforts. NCTCOG's involvement also ensures that plans are compatible and coordinated across jurisdictions. A continued emphasis for Transportation Department staff in FY2008-2009 will be to address thoroughfare planning requests from local governments and counties throughout the Metropolitan Area as well as areas in perimeter counties that have substantial interaction with the core metropolitan area. NCTCOG staff will also incorporate these local efforts into the Regional Thoroughfare Plan, last adopted in December 2001, in an effort to update and revise it. Under the umbrella of the Regional Thoroughfare Plan, staff will work with county and local government representatives to develop county-wide thoroughfare needs assessments.

As a follow-up to the 2004 and 2006 initiatives, NCTCOG staff will work with TxDOT on reviewing and refining the Texas Metropolitan Mobility Plan. Metropolitan Areas across Texas have been called upon by the Office of the Governor and the Texas Transportation Commission to develop Regional Mobility Plans that address eight common goals: reduced congestion, improved safety, improved air quality, improved quality of life, improved opportunities for economic development, enhanced infrastructure maintenance, streamlined project delivery, and TxDOT strategic goals.

Also included in the Transportation Planning program responsibility is the area of public transit planning. This is a significant area of responsibility for NCTCOG staff involving assistance to transportation authorities, transit agencies, and local governments in the evaluation of opportunities for improving existing public transit services as well as establishing transit service in locations where it currently does not exist in the region. During FY2008-2009, staff will provide technical support to the Rail North Texas effort, an initiative to identify potential funding sources for regional rail lines contained in Mobility 2030 that are either outside of a transportation authority service area, or not contained in the financial plans of the authorities. This effort is expected to culminate in a regionally adopted recommendation to the Texas legislature when they meet in 2009.

Intermodal Program Planning

As the nation's largest non-border port-of-entry, the long-term growth and development of the region's intermodal industry is critical to the regional economy. The efficient movement of freight within and through the Dallas-Fort Worth Metropolitan Area is continuing to grow in importance as the region's population continues to grow and traffic congestion increases. During FY2008-2009, Transportation Department staff will continue to focus on intermodal and freight transportation issues, including maintaining and improving access to major intermodal facilities and planning for the increased flow of truck traffic and goods related to the I.H. 35 North America Free Trade Agreement (NAFTA) corridor and other major truck corridors in the region. Staff will continue work to assess and expand left-lane truck lane restrictions currently in place on sections of Interstate Highway 30 and Interstate Highway 20. Goods movement planning will also address at-grade railroad crossing safety, railroad quiet zone implementation, air quality impacts of goods

movement, the creation of a goods movement information and data system, promoting freight-oriented developments, and reviewing the hazardous materials shipment routes.

With funding from the Federal Aviation Administration, work will continue on an update of the Regional General Aviation and Heliport System Plan. This work will include the development of general aviation and vertical flight activity forecasts, as well as the deployment of an Online Regional Aviation Data Management System. Other aviation planning activities will include working with local governments to implement land-use changes near the Naval Station Joint Reserve Base in Fort Worth, as identified in the recently completed Joint Land-Use Study, funded by the Department of Defense. In addition, issues related to surface transportation access to the aviation system will be studied and monitored. Maintaining the efficiency of the air cargo system will require regular inventory, monitoring, and documentation of roadway, truck and rail bottlenecks; as well as coordination of safety and security issues related to access and egress. Development of baseline measures and long-term forecasts, capital needs assessments, and financial planning related to improving the surface transportation system supporting air cargo will be conducted.

Streamlined Project Delivery

As regional roadway and freight/passenger rail projects continue to increase in complexity, scope, and impacts, the NCTCOG Transportation Department has identified a need to expand its involvement beyond its current planning and programming functions in order to improve project delivery in the Dallas-Fort Worth region. In Fiscal Year 2008-2009, the Streamlined Project Delivery program area will facilitate additional technical assistance for local, regional, State, and federal partners to expedite the environmental clearance and implementation of major transportation projects, particularly those which deal with multiple transportation modes concurrently. Included in this effort will be the continued corridor refinement of the approved Regional Transportation Council vision for the Regional Outer Loop/Rail Bypass Study and advancing the formal environmental evaluation of various Outer Loop segments such as Loop 9. NCTCOG staff assigned to this program area will also administer federal funding to assess and implement improvement options for Tower 55, one of the nation's most congested freight rail bottlenecks located at the intersection of the Burlington Northern Santa Fe and Union Pacific Railroads in downtown Fort Worth. The team will also assist the region's transportation providers with input on planning, design, engineering, public/agency involvement, and other streamlined delivery functions for additional major multimodal projects as they are identified within the Metropolitan Transportation Plan or other various programs.

NCTCOG DEPARTMENTAL STAFFING SUMMARY

WORKFORCE DEVELOPMENT PROGRAM SUMMARY

MISSION AND GOALS STATEMENT

Workforce Development administers publicly funded employment, training and support programs for the fourteen-county North Central Texas Workforce Development Area, which includes Collin, Denton, Ellis, Erath, Hood, Hunt, Johnson, Kaufman, Navarro, Palo Pinto, Parker, Rockwall, Somervell, and Wise counties. Our mission is to advance an innovative workforce system, which fosters a competitive economy and improves the quality of life in North Central Texas through employment, education and economic development. The department provides staff support to the North Central Texas Workforce Development Board by providing planning, coordination, management, and oversight services. Through a network of local workforce centers, the Board provides business with skilled workers, assists job seekers in finding rewarding careers, provides professional outplacement services for businesses who are restructuring or downsizing, and provides subsidized child care for eligible families.

The Workforce Development Board

The Board consists of thirty-eight volunteer members who oversee and provide policy guidance for workforce development programs in the fourteen county area. The Board contracts with the North Central Texas Council of Governments to provide staff support and administer the day-to-day operations of the programs. As grant recipient and fiscal agency, NCTCOG is responsible for an annual workforce development budget in excess of \$48 million.

The Board has a highly decentralized service delivery system. Contracted service providers have been procured to manage the Texas Workforce Centers in partnership with Texas Workforce Commission and Texas Veterans Commission staff. The programs provided include the Workforce Investment Act for Adults, Dislocated Workers and Youth, Employment Services, Choices (the employment and training component of the Temporary Assistance for Needy Families program), Project RIO (service to ex-offenders), Food Stamp Employment and Training, and Child Care Services.

Texas Workforce Centers

Fifteen offices, called Texas Workforce Centers, are located throughout the fourteen county area. Official One-Stop locations are in Cleburne, Denton, Mineral Wells, Plano, and Waxahachie. The remaining offices offer services based upon the one-stop methodology, with as many one-stop partners present as possible.

Texas Workforce Centers provide services to the entire population, including the unemployed, the under-employed, and others interested in finding a new career. This year, it is estimated that over 35,000 individuals will receive assistance through the centers and over 6,700 children, on average, per month, will receive care through the subsidized child care assistance program. Workforce Solutions for North Central Texas provides employers with recruitment assistance for job openings, labor market information, outplacement services for companies who are downsizing, skills assessment for current employees and assistance in meeting federal and state employment requirements. Job seekers can access labor market information, information regarding area education and training institutions, access to job-banks which connect job seekers to employers and workshops on various subjects from job search techniques to job interview skills, training for demand occupations and support services such as child care and transportation.

EMERGENCY PREPAREDNESS PROGRAM SUMMARY

MISSION AND GOALS STATEMENT

The Emergency Preparedness Department was established in July 2002. The primary mission of the Emergency Preparedness Department is to build a foundation for lasting partnerships and proactive Emergency Preparedness in North Central Texas through advocacy, information sharing, and collaboration.

On a daily basis our department works together to strengthen emergency preparedness efforts in our region. The department does this by acting as a convener, coordinator, communicator and advocate for training, planning, partnering, and funding opportunities from local, state, federal or private resources.

Numerous committees serve as subject matter experts and aid in determining operational and logistical priorities for the region. Our department works with the regional Emergency Preparedness Planning Council (EPPC), which is comprised of elected officials from participating governments. The committee serves in an advisory and support capacity, and provides general policy direction. We also facilitate a large number of committees who assist in the development of grant and program policies and implementation from a wide range of state and federal grant programs that benefit many different disciplines in our region. We help to identify deficiencies and strategies for improvement in areas such as communications, equipment, training, drills and exercises, and regional mutual aid issues. These issues touch in one way or another almost every segment of our society. Disasters affect everyone and everyone is welcome to provide input toward our efforts at building regional emergency preparedness capacity.

Homeland Security funding for the North Central Texas Region

In FY 2009, the Emergency Preparedness Department anticipates the region receiving \$20,321,500 for the **FY 2008 Urban Area Security Initiative (UASI)**. Once funds are received, allocations are then made to selected projects which are approved by the UASI Executive Committee. The Urban Area Working Group utilizes regional subcommittees comprised of subject matter experts representing various disciplines to review discipline specific information and projects. The regional subcommittees include: Direction and Control, Exercise, Explosive Ordinance Disposal, Urban Search and Rescue, Hazardous Materials, Special Weapons and Tactics, Citizen Corps Programs, Public Education, Fusion Center, Medical and Mass Prophylaxis, and the Interoperable Communications Governance Committee.

The region anticipates receiving **FY 2008 State Homeland Security Program (SHSP)** in the amount of \$5,482,448 from the U.S. Department of Homeland Security through the State of Texas. As a result of the funded projects, the capacity of local governments throughout the region to prevent, protect, respond and recover from a terrorist incident will be greatly enhanced. Funding through FY 2008 SHSP is intended to support three federal objectives: 1. Measuring progress in achieving the National Preparedness Guidelines; 2. Strengthening improvised explosive device (IED) attack, deterrence, prevention and protection capabilities; and 3. Strengthening preparedness planning. Additionally, 25% of the funding award must be dedicated toward law enforcement activities. The Regional Emergency Preparedness Advisory Committee (REPAC) scored the FY08 projects during a three-phased process from April to May 2008. Through their efforts, funded projects will significantly enhance the region's homeland security and terrorism prevention capabilities.

North Central Texas region received \$1,757,464 in **FY 2009 Cities Readiness Initiative (CRI)** and **Public Health Preparedness (PHP)** funding from the Center for Disease Control through the Texas Department of State Health Services. This funding has directly resulted in a better capacity for the region to prepare and respond to a bioterrorism event. The funding has also indirectly benefited the overall preparedness of the region to all hazards. The North Central Texas Council of Governments, along with

the Texas Department of State Health Services Region 2/3 coordinates exercises, trainings, and monthly meeting with the counties in North Central Texas in order to ensure continued efforts in improving implementation of CRI and PHP programs and collaboration between jurisdictions. CRI and PHP funding has also permitted jurisdictions the ability to equip themselves with materials that will supplement their preparedness and response activities to bioterrorism event and other hazards as well.

The U.S. Department of Health and Human Services (HHS), **Office of the Assistant Secretary for Preparedness and Response (OASPR)**, Office of Preparedness and Emergency Operations (OPEO), Division of National Healthcare Preparedness Programs (DNHPP) provided grant funds for state and jurisdictional hospital preparedness and cooperative agreements. This OASPR grant provides grant funds to eligible hospitals to enable such entities to improve surge capacity and enhance community and hospital preparedness for public health emergencies Funds from this HPP guidance will be used to build medical surge capability through associated planning, personnel, equipment, training and exercise capabilities at the State and local levels. The North Central Texas Trauma Regional Advisory Council (NCTTRAC) received \$848,516 for the North Central Texas Region. Approximately, forty-seven hospitals received the OASPR Grant funds.

Name	Federal Fiscal Year	Amount
UASI	FY 2008	\$20,321,500
SHSP	FY 2008	\$5,482,448
CRI/PHP	FY 2009	\$1,757,464
OASPR	FY 2009	\$848,516
Total		\$28,409,928.00
