

# Chapter IV

## Project Implementation/Progress from Previous Years

Section 450.324(l)(2) of Metropolitan Planning Rules requires that the Transportation Improvement Program (TIP) contain a list of major projects from the previous TIP that were implemented and identify any significant delays in the planned implementation of major projects. The Safe Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) emphasizes the TIP as a management tool for monitoring progress in implementation of the Metropolitan Transportation Plan. This chapter highlights projects implemented over the last two years, as well as projects delayed or cancelled during that same timeframe. Projects were delayed due to funding constraints and requirements related to the specific project (e.g., right-of-way availability, environmental concerns, financial limitations, local government priorities, or design changes).

### PROJECT IMPLEMENTATION

During the development of the 2013-2016 TIP, the Regional Transportation Council (RTC) made a strong commitment to implement projects that are contained in the TIP and the State Implementation Plan (SIP). NCTCOG staff is monitoring implementation progress to ensure that the Congestion Mitigation and Air Quality Improvement Program (CMAQ) and the Surface Transportation Program -- Metropolitan Mobility (STP-MM) projects, are being implemented in a timely fashion. Many of the projects in the STP-MM and CMAQ programs were previously identified as transportation control measures (TCMs) in the SIP. The region's leadership believes that the timely implementation of TCMs in the SIP is necessary to meet the requirements in the Clean Air Act Amendments of 1990 and to help the Dallas-Fort Worth region attain the federal Clean Air

Act standards. Additional information regarding SIP commitments is contained in Chapter V.

The tables included in this chapter summarize the major projects for which construction or implementation has begun, is in the process, or has been completed in the Dallas (Eastern Subregion) and Fort Worth (Western Subregion) of the Texas Department of Transportation (TxDOT) from Fiscal Year 2010 to Fiscal Year 2012 as well as any delays from original

Dynamic Message Sign provides travel-time estimates and other information to improve commutes.

project scheduling. It is important to note that the Federal Highway Administration (FHWA) implements federal projects through TxDOT, while the Federal Transit Administration (FTA) implements projects directly through designated recipients or grantees noted in the following tables as "implementing agencies."

### Roadway Projects

Exhibit IV-1 includes a list of roadway projects delayed, let, and/or completed in the TxDOT Fort Worth District; Exhibit IV-2 includes a list of roadway projects delayed, let, and/or completed in the TxDOT Dallas District. The information provided for each project in these two exhibits includes: original CSJ number (e.g., TxDOT project number), revised CSJ number (as appropriate), agency building project, TIP code (e.g., MPO project number), project location, project limits (e.g., from and to), project type, original let date (e.g., date originally estimated for construction to be initiated), and revised let date (e.g., date actually approved for construction to be initiated), and whether the project was let, completed, or delayed, as applicable.

### Transit Projects

Transit projects are summarized differently than the roadway projects, as the FTA implements projects in a different manner. Instead of “letting” like roadway projects, once a transit project is included in an approved FTA grant for a particular fiscal year, it is incorporated into the relevant agency’s operating budget and proceeds toward implementation. A list of projects included in FY 2010 through FY 2012 grant applications to date is provided in Exhibit IV-3 for the Fort Worth District and in Exhibit IV-4 for the Dallas District. As transit projects in the Paris District are administered by TxDOT, information on projects included in FY 2010 through FY 2012 grant applications can be found in the Statewide Transportation improvement Program.
